

VOLUME 24 NO. 1 1998–99
**REAL ANALYSIS
 EXCHANGE**

CONTENTS

EDITORIAL MESSAGES	1
Vasile Ene 1957–1998	3
CONFERENCE ANNOUNCEMENTS	
Summer Symposium in Real Analysis XXIII	
June 21–26, 1999 in Lodz, Poland	5
CONFERENCE REPORT	
Summer Symposium in Real Analysis XXII	
June 23–27, 1998 in Santa Barbara, California	7
RESEARCH ARTICLES	
Soon-Mo Jung	
On the Hausdorff Measure of a Class of Self-similar Sets	121
Hanxiang Chen	
Adjoint Classes of Generalized-Stieltjes Integrable Functions	139
Lee Tuo-Yeong	
Multipliers for Some Non-Absolute Integrals in Euclidean Spaces	149
Vladimir Kanovei and Michael Reeken	
A Nonstandard Proof of the Jordan Curve Theorem	161
Zbigniew Grande	
On Some Special Notions of Approximate Quasi-continuity	171
Grażyna Horbaczewska	
Some Modifications of the Core Topology on the Plane	185
Saharon Shelah	
Covering Numbers Associated with Trees Branching into a Countably	
Generated Set of Possibilities	205
Héctor H. Cuenya and Felipe Zó	
Monotone Norms on $C(\Omega)$ and Multiplicative Factors	215
Jan Jastrzębski	
Local Characterization of Functions Having the Cantor Intermediate Value Property	223
Valery A. Zheludev	
Wavelet Analysis in Spaces of Slowly Growing Splines Via Integral Representation	229
Tibor Šalát, S. James Taylor and János T. Tóth	
Radii of Convergence of Power Series	263
Pawel Hanus and Mariusz Urbański	
Rigidity of Infinite One-dimensional Iterated Function Systems	275
Marianna Csörnyei	
On the Affine Sharpness of Heart’s Density Theorem	289
D. Preiss L. Zajíček	
Sigma-Porous Sets in Products of Metric Spaces and Sigma-Directionally	
Porous Sets in Banach Spaces	295
E. R. Love	
Integration by Parts and Other Theorems for R^3S -Integrals	315
H. Shi and B. S. Thomson	
Haar Null Sets in the Space of Automorphisms on $[0,1]$	337
S. N. Mukhopadhyay and S. Mitra	
An Extension of a Theorem of Ash on Generalized Differentiability	351
