

# REAL ANALYSIS EXCHANGE Volume 23, Number 1, 1998

## CONTENTS

EDITORIAL MESSAGES . . . . .	1
CONFERENCE ANNOUNCEMENTS	
Summer Symposium in Real Analysis XXII	
June 23–27, 1998 in Santa Barbara, California . . . . .	3
Special Session in Real Analysis	
March 20–21, 1998 in Louisville, Kentucky . . . . .	4
Conference on Dimensions and Dynamics	
July 20–24, 1998 in Miskolc, Hungary . . . . .	5
CONFERENCE REPORT	
Summer Symposium in Real Analysis XXI	
June 18–21, 1997 in Chattanooga, Tennessee . . . . .	7
RESEARCH ARTICLES	
Claude-Alain Faure	
A Descriptive Definition of the KH-Stieltjes Integral . . . . .	113
Ján Borsík	
On Products of Quasicontinuos Functions . . . . .	125
Marek Balcerzak and Joanna Peredko	
Descriptive Character of Sets of Density and I-Density Points . . . . .	131
Vasile Ene	
Convergence and Approximate Differentiation . . . . .	141
Jakub Jasinski and Ireneusz Reclaw	
Restrictions to Continuous and Pointwise Discontinuous Functions . . . . .	161
Samuel Kaplan	
On Unbounded Order Convergence . . . . .	175
Brian S. Thomson	
$\sigma$ -Finite Borel Measures on the Real Line . . . . .	185
Dariusz Banaszewski and Krzysztof Ciesielski	
Compositions of Two Additive Almost Continuous Functions . . . . .	193
Zbigniew Grande	
On the Measurability of Functions Defined on the Product of two Topological Spaces	203
Kenneth R. Kellum	
Compositions of Darboux-Like Functions . . . . .	211
Marianna Csörnyei	
On the Non-existence of Certain Bounded Linear Projections . . . . .	217
In Soo Baek and Hung Hwan Lee	
Perturbed Type Random Cantor Set . . . . .	223
INROADS	
Hanxiang Chen	
A pair of adjoint classes of Riemann–Stieltjes integrable functions . . . . .	235
Mark McClure	
The prevalent dimension of graphs . . . . .	241
Ricardo Bianconi	
On the convergence of the integrals of a truncated Henstock-Kurzweil	
integrable function . . . . .	247
Roy A. Mimna and Eric J. Wingler	
Locally bounded functions . . . . .	251
