

EDITORIAL MESSAGES

By Paul D. Humke

Omission. Recently we discovered that the cover table of contents for Volume 21 Number 1 is missing an entry. It should include the following:

A. Maliszewski

On the Differences of Darboux Upper Semicontinuous Functions . . . 258

We apologize to Alek for this omission.

Thanks. It is a pleasure to thank Margaret (Maggy) Flint of St. Olaf College for her dedicated work as an Assistant Editor during this past year. Maggy is a wonderful right hand. Thanks too belong to Ali Alikhani for his selfless work directing Summer Symposium XXXVI, The *Liberty Bell* Symposium, and to Marcia Federson for her dedication organizing the *Sugar Cane* Symposium XXXVII in São Paulo this coming June. As Marcia points out, June in Brazil is not exactly a “summer” month so to retain our truth in advertizing, we have dropped the “Summer” adjective this year.

Author Class File. Our raex.cls \LaTeX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: www.stolaf.edu/analysis.

Advertisements. Please note the advertisements at the end of each issue, which may be of interest to *Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

Michigan State University Press. If your are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our website and invite your feedback regarding the content. The address is:
