EDITORIAL MESSAGES

By Paul D. Humke and Clifford E. Weil

Thanks. Again for this issue Gabriela Ene typed several of the articles into LaTeX for us and Jana Chlebik converted TeX and AMSTeX files into LaTeX files in our style file. We thank both of them for their help.

We also wish to say thanks for a job well done to Professor Hans Heinig, who, after trying before, has finally prevailed on us to allow him to retire from the Editorial Board. We thank him for all of the work he did for us during his tenure on the Board and we certainly wish him well.

Welcome. We are please to announce that Professor Alekander Olevskii has agreed to take over the position on the Editorial Board vacated by the retirement of Professor Hans Heinig. Sasha is no stranger to readers of the RAE known for his publications and frequent appearances at our annual meetings. We welcome him to the Board and look forward to a long and fruitful association.

Reminder. We remind our subscribers of the Special Subscribers Fund which helps to defer the subscription cost of many subscribers who, for one reason or another, aren't able to pay for their subscriptions, but who profit from reading the journal. There are about 30 people who fall into that category. They are grateful for the support they have received. We urge all able to contribute to the Fund to do so. Contributions should be in to form of a check payable to *REAL ANALYSIS EXCHANGE* and mailed to:

> *Real Analysis Exchange*
> Mathematics Department
> East Lansing, MI 48824-1027
> USA

The following individuals have made contributions to the Fund in the past year. We are grateful for their support.
