

EDITORIAL MESSAGES

By Paul D. Humke

Post-Covid. The *Exchange* office and that of Michigan State University Press both anticipate a more normal work environment and schedule beginning in September. The *Two Days in Real Analysis* online conference organized by Emma Daniello, (Naples, Italy) was a great success and we look forward to *Summer Symposium XLIV* to be held June 20–24 jointly in Orsay and Paris.

A Veteran Retires, a New Editor Arrives Chris Ciesielski has served as a Contributing Editor for the *Exchange* for almost thirty years, and this year sees his retirement from that post. He’s not going away, of course, but it’s still hard to think of being without his good advice and impeccable professional standards. A good portion of the areas that Chris managed will now be handled by Olena Karlova, who we warmly welcome to our Board.

WelcomeBack Former Assistant Editor Thong Vo has graciously agreed to serve as our newest Technical Editor for the *Exchange*. His help shepherding us through the transition to *EditFlow*, a software service for managing the submission and peer-review workflows of research journals was invaluable.

Thanks Again Continuing thanks to Assistant Editor, Abigail (Abby) Halverson who manages the day-to-day operations of the Editorial Office and helps prepare papers for publication. and to Journals Manager, Natalie Eidenier and her staff at Michigan State University Press who do final copy editing for the *Exchange* and shepherd each issue through the printing and distribution process.

JSTOR Access. Access to most of the back issues of the *Exchange* is now available on JSTOR. Access to the oldest volumes will take a bit longer as we await scanning and editing. We have also begun posting “pre-publication” drafts of accepted papers on JSTOR shortly after the galley proofs have cleared.

Author Class File. Our `raex.cls` L^AT_EX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title, and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the `raex.cls` classfile is available at our website: www.stolaf.edu/analysis.

Michigan State University Press. If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our websites and invite your feedback regarding the content. The addresses are:

- For Article Access: <http://www.msupress.org/journals/raex/>
- For the Editorial Office: <http://www.stolaf.edu/analysis>.
