

EDITORIAL MESSAGES

By Paul D. Humke and Lars Olsen, Editors-in-Chief

Change of Management. It is an honor and pleasure to introduce Dr. Tiana Sworowska as the new Senior Administrator for the *Exchange*. Tanya's already been working with us for several months, and in the future she'll be in charge of all day to day management of the *Exchange*.

Dr. Sworowska was a PhD student of Valentine Skvortsov and is a 2009 graduate of Lomonosov Moscow State University writing on Fourier Series. She's not only a real analyst, but has extensive experience with the administration of research journals of mathematics. Tanya is married to Piotr Sworowski and the two of them live with their daughter in Bydgoszcz, Poland.

We feel very fortunate indeed to have her on our team!

Continuing Production Changes. Our production procedure continues to evolve and although delayed, we are working hard to see that as of volume 49 number 2, papers will appear on *Project Euclid* only a few weeks after their acceptance date. The *Exchange* owes a great deal to Technical Editor Tom Vo for his leadership in this process.

Continuing Thanks. Continuing thanks to Journals Manager, Natalie Eidenier and her staff at Michigan State University Press who do final copy editing for the *Exchange* and shepherd each issue through the printing and distribution process.

Project Euclid Access. Access to most of the back issues of the *Exchange* is now available on *Project Euclid*.

Author Class File. Our raex.cls L^AT_EX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title, and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: www.stolaf.edu/analysis.

Michigan State University Press. If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our websites and invite your feedback regarding the content. The addresses are:
