

THE ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 14

Summer 1984

Number 3

CONTENTS

A characterization of rational and elliptic real algebraic curves in terms of their space of orderings By J.M. GAMBOA	499
Selections of multifunctions of two variables By BIAGIO RICCERI	503
Nonlinear boundary value problems for second order elliptic systems By FRANK SCHLINDER	519
Minimal existence of nonoscillatory solutions in functional differential equations with deviating arguments By BHAGAT SINGH	531
Products of two Abelian subgroups By BERNARD AMBERG	541
Upper and lower solutions for systems of second order equations with nonnegative characteristic form and discontinuous nonlinearities By CHRIS COSNER AND FRANK SCHLINDER	549
Hermitean quadrics as contact manifolds By JAY P. FILLMORE	559
A characteristic of oriented Grassman manifolds By D.E. BLAIN AND A.J. LEDGER	573
Continuous functions and minimal regularity By DIX H. PETTEY	585
Saddle point approximations in n-type epidemics and contact birth processes By J. RADCLIFFE AND L. ROSS	599
Limit cycles of quadratic systems in the plane By L.M. PERKO	619
A note of order convergence in complete lattices By H. DOBBERTIN, M. ERNE AND D.C. KENT	647
On the imprivity theorem for algebraic groups By ANDY R. MAGID	655
Some subordinate relations By T. BASGOZE AND F.R. KEOGH	661
