

THE ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 15

Winter 1985

Number 1

---

CONTENTS

Kummer congruencies in formal groups and algebraic groups of dimension one By C. SNYDER .....	1
On the existence on metric polarizations By RONALD L. LIPSMAN .....	13
Regularized Ritz approximations for Fredholm equations of the first kind By C.W. GROETSCH AND J. GUACANEME .....	33
Gorenstein toric threefolds with isolated singularities and cyclic divisor class group By RICK MIRANDA .....	39
A characterization of those spaces having zero-dimensional remainders By BEVERLY DIAMOND .....	47
The Schur and Hahn theorems for operators matrices By CHARLES SCHWARTZ .....	61
Zeros and factors of polynomials with positive coefficients and protein-ligand binding By W.E. BRIGGS .....	75
Chain conditions in endomorphism rings By ULRICH ALBRECHT .....	91
Reflexive algebras of matrices By GEORGE P. BARKER AND JOYCE J. CONKLIN .....	107
A new proof of the Cwikel-Lieb-Rosenblijum bound By JOSEPH G. CONLON .....	117
Some distortion theorems for a class of convex functions By RICHARD FOURNIER .....	123
The theory of forced, convex autonomous, two point boundary value problems By THEODORE LAETSCH .....	133
The Schur multiplier of the automorphism group of the Mathieu group $M_{22}$ By JOHN F. HUMPHREYS .....	155
