

SUT JOURNAL OF MATHEMATICS

Volume 57, Number 2

December 2021

CONTENTS

- Nandan Bhunia, Sampa Pahan and Arindam Bhattacharyya:
Pseudo-projective curvature tensor on warped product manifolds and its applications in space-times 93
- Kiyoko Matsunaga:
Mechanism of folding a strip into isotetrahedra or rectangle dihedra ... 109
- Satoshi Usui:
Tate-Hochschild cohomology rings for eventually periodic Gorenstein algebras 133
- Mana Aizawa, Shuji Ando, Kouji Tahata and Sadao Tomizawa:
Non-inferiority marginal symmetry model and its decomposition for ordinal square contingency tables 147
- Tomoyuki Nakagawa, Ryoma Namba, Kiyotaka Iki and Sadao Tomizawa:
Improved approximate unbiased estimators of the measure of departure from partial symmetry for square contingency tables 167
- Silvestru Sever Dragomir:
Norm inequalities for the generalised commutator in Banach algebras 185
- Ryo Muramatsu:
Estimates on modulation spaces for Schrödinger operators with first order magnetic fields 201
- Shuji Ando, Tomohiro Noguchi, Aki Ishii and Sadao Tomizawa:
A two-dimensional index for marginal homogeneity in ordinal square contingency tables 211
