

SUT JOURNAL OF MATHEMATICS

Volume 59, Number 2

December 2023

CONTENTS

Hiroto Ishida: Homogenization for Poisson equations in domains with concentrated holes	61
Naoto Kajiwara and Aiki Matsui: Maximal regularity for the heat equation with various boundary conditions in an infinite layer	73
Reo Kanazawa and Takeshi Kurosawa: Parameter estimation and forecasts for an integrated Lee-Carter model	91
Naoko Kunugi and Kyoichi Suzuki: Splendid Morita equivalences for the principal 2-blocks of 2-dimensional general linear groups in non-defining characteristic	117
