

CONTENTS

Zhou Youcheng: On unicoherence at subcontinua ..... 257

Hwa Hon Song, Takahisa Kimura and Naoyuki Koike: On proper helices  
and extrinsic spheres in pseudo-Riemannian geometry ..... 263

Nguyen To Nhu, Nguyen Nhuy and Tran Van An: Regular retractions  
onto finite dimensional convex sets and the AR-property for Roberts  
spaces ..... 281

Angel Tamariz-Mascarúa: Countable product of function spaces having p-  
Frechet-Urysohn like properties ..... 291

J. C. González-Dávila, M. C. González-Dávila and L. Vanhecke: Classifica-  
tion of Killing-transversally symmetric spaces ..... 321

Hyang Sook Kim and Ryoichi Takagi: The type number of real hypersur-  
faces in  $P_n(C)$ ..... 349

S. Mardešić and N. Uglešić: Morphisms of inverse systems require meshes 357

Kokio Shirai: The  $\omega$ -consistency of elementary analysis..... 365

In Ho Jeon, Jin Chun Kim and Woo Young Lee: On a spectral property of  
analytic operators ..... 379

Hajime Urakawa: Self-dual connections of homogeneous principal bundles  
over quaternionic Kaehler symmetric spaces ..... 387

D. Tambara: A note on free differential graded algebra resolutions..... 399

Katsumi Akahori: The intersection of quadrics and defining equations of  
a projective curve..... 413

Fumiko Ohtsuka: Hausdorff approximations on Hadamard manifolds and  
their ideal boundaries ..... 425

Angel Ferrández, Pascual Lucas and Miguel A. Meroño: A quadric repre-  
sentation of pseudo-Riemannian product immersions ..... 435

P. Dräxler and J. A. de la Peña: On the existence of postprojective com-  
ponents in the Auslander-Reiten quiver of an algebra ..... 457

Kazuhiro Kawamura: Proper n-homotopy equivalences of locally compact  
polyhedra ..... 471

Hiroshi Hosokawa: Arcwise connectedness of the complement in a hyper-  
space ..... 479

Edgar E. Enochs, Overtoun M. G. Jenda and Jinzhong Xu: Covers and en-  
velopes over Gorenstein rings ..... 487

Christos Baikoussis and David E. Blair: On a type of real hypersurfaces  
in complex projective space ..... 505

Takuji Sato: Almost Kähler manifolds of constant holomorphic sectional  
curvature ..... 517

Kenichi Yamauchi: On automorphisms of a character ring ..... 525
