

**CONTENTS**

Masanobu Kaneko and Hirofumi Tsumura: On multiple zeta values of level two .....	213
Daniel Duverney, Takeshi Kurosawa and Iekata Shiokawa: Irrationality exponents of certain fast converging series of rational numbers.....	235
Neil Mañibo, Eden Delight P. Miro, Dan Rust and Gwendolyn S. Tadeo: Zeckendorf representations and mixing properties of sequences.....	251
Makoto Nakamura: Remarks on the Navier-Stokes equations and the elastic wave equations in homogeneous and isotropic spacetimes ....	271
Kenichiro Yamamoto: On the density of periodic measures for piecewise monotonic maps and their coding spaces .....	309
