Peter V. GILKEY, Chan Yong KIM and JeongHyeong PARK: Real analytic complete non-compact surfaces in Euclidean space with finite total curvature arising as solutions to ODEs . . . . .	1
Kazutoshi KARIYAMA: A remark on Jacquet–Langlands correspondence and invariant $s$ . . . . .	25
Shinnosuke OKAWA: Surfaces of globally $F$ -regular type are of Fano type . . . . .	35
Ion MIHAI: On the generalized Wintgen inequality for Legendrian submanifolds in Sasakian space forms . . . . .	43
Julien ROQUES: On the reduction modulo $p$ of Mahler equations . . . . .	55
Masanori MORISHITA, Yu TAKAKURA, Yuji TERASHIMA and Jun UEKI: On the universal deformations for $SL_2$ -representations of knot groups . . . . .	67
Kazumasa INABA, Masaharu ISHIKAWA, Masayuki KAWASHIMA and Tat Thang NGUYEN: On linear deformations of Brieskorn singularities of two variables into generic maps . . . . .	85
Jun-ichi INOBUCHI and Marian Ioan MUNTEANU: Periodic magnetic curves in Berger spheres . . . . .	113
Taro ASUKE: Notes on ‘Infinitesimal derivative of the Bott class and the Schwarzian derivatives’ . . . . .	129
Peng WANG: Willmore surfaces in spheres via loop groups III: on minimal surfaces in space forms . . . . .	141
