Jun-ichi MUKUNO and Yoshikazu NAGATA: On a characterization of unbounded homogeneous domains with boundaries of light cone type	161
Eiichi NAKAI and Gaku SADASUE: Some new properties concerning BLO martingales	183
Charles VIAL: Remarks on motives of abelian type	195
Daniel ALLCOCK and Fumiharu KATO: A fake projective plane via 2-adic uniformization with torsion	221
Atsushi YAMAMORI: Non-hyperbolic unbounded Reinhardt domains: non-compact automorphism group, Cartan's linearity theorem and explicit Bergman kernel	239
Nikolaos S. PAPAGEORGIOU and Vicențiu D. RĂDULESCU: Robin problems with indefinite and unbounded potential, resonant at $-\infty$, superlinear at $+\infty$	261
Yoshiaki GOTO: Contiguity relations of Lauricella's F_D revisited	287
James J. HEBDA and Yutaka IKEDA: Replacing the lower curvature bound in Toponogov's comparison theorem by a weaker hypothesis	305
