

CONTENTS

	Page
Leticia BARCHINI: Characteristic cycles of highest Weight Harish-Chandra modules and the Weyl group action on the conormal variety	171
Tomoyoshi IBUKIYAMA: Quinary lattices and binary quaternion hermitian lattices	207
Yusuke MIURA: The conservativeness of Girsanov transformed symmetric Markov processes	221
Ying LI, Anna MARCINIAK-CZOCHRA, Izumi TAKAGI and Boying WU: Steady states of FitzHugh-Nagumo system with non-diffusive activator and diffusive inhibitor	243
Guan-Yu CHEN and Takashi KUMAGAI: Products of random walks on finite groups with moderate growth	281
Mingming CAO and Qingying XUE: A revisit on commutators of linear and bilinear fractional integral operator	303
Francis E. A. JOHNSON: A flat projective variety with D_8 -holonomy	319
