	Page
Luiz C. B. DA SILVA: Surfaces of revolution with prescribed mean and skew curvatures in Lorentz-Minkowski space	317
Hideaki IKOMA: Adelic Cartier divisors with base conditions and the Bonnesen–Diskant-type inequalities	341
Peng CHEN, Xiaoxiao TIAN and Lesley A. WARD: The commutators of Bochner–Riesz operators for elliptic operators	403
Seungsu HWANG and Sanghun LEE: Myers-type compactness theorem with the Bakry-Emery ricci tensor	421
Xavier VIDAUX and Carlos R. VIDELA: Dedekind’s criterion for the monogenicity of a number field versus Uchida’s and Lüneburg’s	433
Daniel DUARTE and Luis NÚÑEZ-BETANCOURT: Higher Nash blowups of normal toric varieties in prime characteristic	449
Kei KONDO and Yusuke SHINODA: On sufficient conditions to extend Huber’s finite connectivity theorem to higher dimensions	463
