ACKNOWLEDGMENT OF PRIORITY

By G. P. Steck

Two of the examples given in my note, "A Uniqueness Property Not Enjoyed by the Normal Distribution," *Ann. Math. Stat.*, Vol. 29 (1958), pp. 604–606, of non-normal distributions where the quotient follows the Cauchy law had already been given, as consequences of a general result, by J. G. Mauldon, "Characterizing Properties of Statistical Distributions," *Quart. J. Math.*, Ser. 2, Oxford, Vol. 7 (1956), pp. 155–160.
