JOURNAL OF INTEGRAL EQUATIONS
AND APPLICATIONS
Volume 22, Number 4, Winter 2010

VOLUME INDEX

Anderssen, R.S., *Derivative spectroscopy—An enhanced role for numerical differentiation*, 355.
Anderssen, R.S., see De Hoog, F.R.
Appleby, John A.D., *Stochastic Volterra equations in weighted spaces*, 1.
Atkinson, Kendall, *Introduction: Dedication to Charles W. Groetsch*, 165, 353.
Boţ, Radu Ioan, *An extension of the variational inequality approach for obtaining convergence rates in regularization of nonlinear ill-posed problems*, 369.
Braun, Richard J., see French, Donald A.
Brooks, Cara D., *Local regularization of nonlinear Volterra equations of Hammerstein type*, 393.
Cakoni, Fioralba, *The determination of boundary coefficients from far field measurements*, 167.
Chkadua, O., *Analysis of direct boundary-domain integral equations for a mixed BVP with variable coefficient,* II: *Solution regularity and asymptotics*, 19.
Colton, David, see Cakoni, Fioralba.
Corrêa, Francisco Julio S.A., *A variational approach for a nonlocal and nonvariational elliptic problem*, 549.
De Hoog, F.R., *Kernel perturbations for Volterra convolution integral equations*, 427.
Delbary, Fabrice, *Electrical impedance tomography with point electrodes*, 193.
Diamantopoulos, Epaminondas A., *Norm estimates for a particular weighted integral operator*, 39.
Figueiredo, Giovany M., see Corrêa, Francisco Julio S.A.
French, Donald A., *An integro-differential equation model for the spread of alcohol abuse*, 443.
Frick, Klaus, *Regularization of ill-posed linear equations by the non-stationary augmented Lagrangian method*, 217.
Hanke, Martin, *The regularizing Levenberg-Marquardt scheme is of optimal order*, 259.
Hegland, M., see Anderssen, R.S.
Hegland, Markus, *Error bounds for spectral enhancement which are based on variable Hilbert scale inequalities*, 285.
Hochstenbach, Michiel E., *An iterative method for Tikhonov regularization with a general linear regularization operator*, 465.
Hofmann, Bernd, see Boţ, Radu Ioan.
Ivanyshyn, O., *Corrections to nonlinear integral equations for solving inverse boundary value problems for inclusions and cracks* **JIEA 18 (2006), 13–38**, 647.
Kaltenbacher, B., *A convergence analysis of the midpoint rule for first kind Volterra integral equations with noisy data*, 313.
Kress, R., see Ivanyshyn, O.
Kress, Rainer, see Delbary, Fabrice.
Lamm, Patricia K., see Brooks, Cara D.
Lewis, Timothy J., see French, Donald A.
Liaskos, K.B., *Stochastic integrodifferential equations in Hilbert spaces with applications in electromagnetics*, 559.
Lu, S., *On the generalized discrepancy principle for Tikhonov regularization in Hilbert scales*, 483.
