

The number of participants at the Fifteenth Summer Symposium in Real Analysis was so large that they could not all be included in one photograph. On this page you will find pictured most of those who attended the meeting in Smolenice, Czechoslovakia.

ANDY AWARD WINNER
ALEKSANDER OLEVSKII

Here we see a surprised but obviously pleased Sasha Olevskii as he is given the award by the Chairman of the Organizing Committee, Professor Jaroslav Smítal.

The other members of the Organizing Committee worked very hard serving the participants of the conference. From left to right they are: Jana and Miroslav Chlebík, Bernd Kirchheim and Pavel Kostyrko.

**Report on the
SUMMER SYMPOSIUM
in REAL ANALYSIS XV
Smolenice, Czechoslovakia
August 12–16, 1991**

The Fifteenth Summer Symposium in Real Analysis was held August 12–16, 1991 at the Smolenice Castle, located approximately 45 km north of Bratislava. The hospitality of our hosts, the beautiful surroundings, the large number of participants, and the mathematics discussed (formally and informally) made this meeting a memorable one for all fortunate enough to attend. The Smolenice Castle is presently under the auspices of the Slovak Academy of Sciences and provided a unique and pleasant setting for this special week. The **Exchange** editorial staff wishes to thank the academy and the very accommodating staff at the castle for making this facility available and enjoyable. The conference organizing committee consisted of Jaroslav Smítal, Miroslav Chlebík, Bernd Kirchheim, and Pavel Kostyrko, all of Comenius University. Their efforts before, during, and after the conference are greatly appreciated. A huge word of appreciation must also go to Jana Chlebíková, who was found doing everything from assisting western visitors with the telephone to tirelessly typing abstracts, schedules, etc.

The conference featured invited hour addresses by:

- **ANDREW M. BRUCKNER** (*Santa Barbara*)
- **MIKLÓS LACZKOVICH** (*Budapest*)
- **ALEKSANDER OLEVSKII** (*Moscow*)

Forty-four speakers contributed twenty minute talks, and a lively problem session was held late Tuesday, prefaced by an invited presentation of some open problems by

- **PAUL ERDŐS** (*Budapest*).

The participants included:

Marek Balcerzak (*Łódź*), Jozef Bobok (*Prague*), Benedetto Bongiorno (*Palermo*), Ján Borsík (*Košice*), Andrew M. Bruckner (*Santa Barbara*), Judith Bruckner (*Santa Barbara*), Zoltán Buczolic (*Budapest*), Peter S. Bullen (*Vancouver*), Miroslav Chlebík (*Bratislava*), Joanna Czarnowska (*Gdańsk*), Paul Erdős (*Budapest*), Michael J. Evans (*Raleigh*), Janina Ewert (*Słupsk*), Vladimir V. Fedorenko (*Kiev*), Richard G. Gibson (*Columbus*), François Guénard (*Paris*), Ján Haluška (*Košice*), Jacek Hejduk (*Łódź*), Ralph Henstock (*Londonderry*), Petr Holický (*Prague*), Roman Hric (*Banská Bystrica*), Patricia Hug (*Paris*), Paul D. Humke (*Northfield*), Jan Jastrzębski (*Gdańsk*), Jacek M. Jędrzejewski (*Bydgoszcz*), Roy A. Johnson (*Pullman*), A. Katafiasz (*Bydgoszcz*), Václav Kelar (*Prague*), Bernd Kirchheim (*Bratislava*), Pavel Kostyrko (*Bratislava*), Milan Kuchta (*Bratislava*), Anna Kucia (*Katowice*), Jaroslav Kurzweil (*Prague*), Grazyna Kwiecińska (*Gdańsk*), Miklós Laczkovich (*Budapest*), Lee Larson (*Louisville*), Jan S. Lipiński (*Gdańsk*), Jaroslav Lukeš (*Prague*), Dorothy Maharam Stone (*Boston*), Jan Mařík (*East Lansing*), Pieter Maritz (*Stellenbosch*), Milan Matejdes (*Zvolen*), Ladislav Mišík (*Bratislava*), Pat Muldowney (*Londonderry*), Tomasz Natkaniec (*Bydgoszcz*), Andrzej Nowak (*Katowice*), Aleksander Olevskii (*Moscow*), Sofia Olevskii (*Moscow*), Richard J. O'Malley (*Milwaukee*), Washek F. Pfeffer (*Davis*), Andrzej Rychlewicz (*Łódź*), Aleksander N. Šarkovskii (*Kiev*), Štefan Schwabik (*Prague*), Andrej G. Sivak (*Kiev*), Valentin Skvortsov (*Moscow*), Jaroslav Smítal (*Bratislava*), Ľubomír Snoha (*Banská Bystrica*), Arthur H. Stone (*Boston*), Andrzej Szymanski (*Slippery Rock*), Jaroslav Tišer (*Prague*), Jaromír Uher (*Prague*), Peter Vojtáš (*Košice*), Rudolf Výborný (*Queensland*), Clifford E. Weil (*East Lansing*), Luděk Zajíček (*Prague*), and Piotr Zakrzewski (*Berlin*).

A number of accompanying spouses and family members also attended and added to the fellowship of the week.

At the traditional Symposium Banquet Jaroslav Smítal announced the organizing committee's selection for the winner of this year's **ANDY AWARD** and that selection was greeted with a rousing round of applause. The winner is

ALEKSANDER OLEVSKII.

PROGRAM of the SMOLENICE SYMPOSIUM

(The page number in the right hand column refers to the page of this issue on which a summary of the presentation is located. An * in this column indicates that a summary was not available from the speaker at the time of printing.)

MONDAY Morning: Chairman: *A. M. Bruckner*

09.10 – 10.10	<i>M. Laczkovich</i>	p. 15
	Paradoxical decompositions using Lipschitz functions	
10.20 – 10.40	<i>Z. Buczolich</i>	p. 16
	Bi-Lipschitz mappings and density points	
11.00 – 11.20	<i>P. Humke</i>	p. 17
	Remarks on the density (property) of O'Malley	
11.30 – 11.50	<i>L. Zajíček</i>	p. 18
	A note on σ -porous sets	
12.00 – 12.20	<i>M. J. Evans</i>	p. 19
	Symmetric porosity and symmetric Cantor sets	

MONDAY Afternoon: Chairman: *L. Mišík*

15.30 – 15.50	<i>R. Henstock</i>	p. 21
	The integral over product spaces, and Wiener's formula	
16.00 – 16.20	<i>J. Kurzweil</i>	p. 23
	Differentiability and integrability in n dimensions with respect to α -regular intervals	
16.30 – 16.50	<i>R. Výborný</i>	p. 25
	Kurzweil–Henstock integration and the strong Lusin condition	
17.30 – 17.50	<i>P. Muldowney</i>	p. 27
	Integration of a functional	
18.00 – 18.20	<i>W. F. Pfeffer</i>	p. 29
	A Volterra type derivative of the Lebesgue integral	
18.30 – 18.50	<i>B. Bongiorno</i>	p. 30
	Remarks on nonabsolutely convergent integrals in the real line	

TUESDAY Morning: Chairman: *J. Kurzweil*

- 09.00 – 10.00 *A. Olevskii* p. 32
Change of variable in Fourier analysis
- 10.10 – 10.30 *V. Skvortsov* p. 33
Some inversion results for the generalized Walsh-Fourier transform
- 11.00 – 11.20 *C. E. Weil* p. 35
Multipliers of classes of derivatives
- 11.30 – 11.50 *J. Mařík* p. 37
The equation $f^2 + g^2 = h^2$, where f, g, h are derivatives
- 12.00 – 12.20 *P. Kostyrko* p. 39
Symmetric approximate derivatives are uniformly closed

TUESDAY Afternoon: Chairman: *P. D. Humke*

- 15.00 – 15.20 *T. Natkaniec* p. 40
On some problems concerning almost continuity
- 15.30 – 15.50 *A. Szymanski* p. 42
Almost continuous functions and almost Baire functions
- 16.00 – 16.20 *J. Ewert* p. 44
The topology of semilocal connectedness and s -continuity
of maps on product spaces
- 17.00 – 17.30 *P. Erdős* see Queries Section
On some problems in measure theory and geometry
- 17.30 Problem session see Queries Section

WEDNESDAY Morning: Chairman: *J. Mařík*

- 09.00 – 09.20 *M. Matejdes* p. 46
Continuity and measurability of path derivatives
- 09.30 – 9.50 *J. Hejduk* p. 48
Non-Baire sets in category bases

10.00 – 10.20	<i>G. Kwiecinska</i>	p. 50
	Measurability of multifunctions of two variables	
10.40 – 11.00	<i>D. Maharam Stone</i>	p. 52
	On a combinatorial theorem of Curtis Greene	
11.10 – 11.30	<i>A. Stone</i>	p. 53
	A parametrization theorem for generalized Borel sets	
11.40 – 12.00	<i>P. Maritz</i>	p. 54
	On approximation spaces	

THURSDAY Morning: Chairman: *J. Smítal*

09.00 – 10.00	<i>A. M. Bruckner</i>	p. 56
	Three forms of Chaos and their associated attractors	
10.10 – 10.30	<i>Ľ. Snoha</i> (with <i>S. F. Kolyada</i>).....	p. 57
	On ω -limit sets of triangular maps	
11.00 – 11.20	<i>A. N. Šarkovskii</i>	*
	Random attractors in deterministic problems	
11.30 – 11.50	<i>A. G. Sivak</i>	p. 59
	On structure of σ -limit sets	
12.00 – 12.20	<i>V. V. Fedorenko</i>	*
	On a classification of trajectories of a map of the interval	

THURSDAY Afternoon: Chairman: *M. Laczkovich*

15.30 – 15.50	<i>J. Smítal</i>	p. 61
	Dynamical systems on the interval	
16.00 – 16.20	<i>R. J. O'Malley</i>	p. 63
	Ergodic theory and first-return sequences	
16.30 – 16.50	<i>M. Kuchta</i>	p. 64
	Shadowing property for continuous maps with zero topological entropy	

17.30 – 17.50	<i>B. Kirchheim</i>	p. 66
	Typical functions in subspaces of \mathcal{B}^1 : thick or thin ?	
18.00 – 18.20	<i>P. Vojtáš</i>	*
	On isomorphism of quotients of comparison ordering of divergent series and of $\mathcal{P}(\mathcal{N})/\text{fin}$	
18.30 – 18.50	<i>P. Zakrzewski</i>	p. 67
	Strong Fubini theorems from measure extension axioms	

FRIDAY Morning: Chairman: *R. J. O'Malley*

09.00 – 09.20	<i>R. G. Gibson</i>	p. 69
	Concerning a characterization of continuity	
09.30 – 09.50	<i>J. Jastrzębski</i>	*
	Remarks on points of almost continuity	
10.00 – 10.20	<i>A. Rychlewicz</i>	*
	On the algebraic embeddability in the class of functions possessing connected graphs	
11.00 – 11.20	<i>M. Balcerzak</i>	p. 71
	Some remarks on sup-measurability	
11.30 – 11.50	<i>J. Borsík</i>	p. 73
	On limits of quasicontinuous, simply continuous and cliquish functions	
12.00 – 12.20	<i>J. M. Jędrzejewski</i>	*
	Some properties of subclasses of Darboux functions	

FRIDAY Afternoon: Chairman: *C. E. Weil*

15.30 – 15.50	<i>A. Nowak (with A. Kucia)</i>	p. 75
	Measurable fields of metric spaces	
16.00 – 16.20	<i>J. Czarnowska</i>	p. 77
	On the Darboux property of multivalued maps	
16.30 – 16.50	<i>A. Katafiasz</i>	p. 79
	The improvable discontinuous functions	

17.30 – 17.50	<i>J. Haluška</i>	p. 81
	On Jegorov theorem for nets of measurable functions	
18.00 – 18.20	<i>L. Larson</i>	p. 83
	Some topics concerning \mathcal{I} -density continuous functions	
18.30	Closing of the Summer Symposium and Symposium Banquet
