

Ann. Funct. Anal.
Volume 1, Number 1, 2010

- 1 **Some remarks on the history of functional analysis** pp. 1-12
K. Ciesielski; M.S. Moslehian
- 2 **Differential subordinations for certain analytic functions missing some coefficients** pp. 13-25
K. Kuroki; S. Owa
- 3 **Stability of a functional equation related to distance measure- II** pp. 26-35
G.H. Kim; P.K. Sahoo
- 4 **Local operators and a characterization of the Volterra operator** pp. 36-40
J. Matkowski
- 5 **A simple observation about compactness and fast decay of Fourier coefficients** pp. 41-43
J.M. Almira
- 6 **A fixed point approach to the stability of ϕ -morphisms on Hilbert C^* -modules** pp. 44-50
Gh. Abbaspour; M. Ramezanpour
- 7 **On Minkowski and Hermite-Hadamard integral inequalities via fractional integration** pp. 51-58
Z. Dahmani
- 8 **Spectral mapping theorems and stability theory in linear dynamical systems** pp. 59-71
R.K. Singh
- 9 **On n-norms and bounded n-linear functionals in a Hilbert space** pp. 72-79
S.M. Gozali; H. Gunawan; O. Neswan

- 10 **On the two-dimensional moment problem** pp. 80-104
S. Zagorodnyuk
- 11 **Polynomial identification in uniform and operator algebras** pp. 105-122
D. Ethier; T. Lindberg; A. Luttmann
- 12 **On splitting of extensions of rings and topological rings** pp. 123-132
M. Abel
- 13 **Stability on a cone in terms of two measures for differential equations with ``maxima''** pp. 133-143
A. Dishliev; S. Hristova
- 14 **Representations of topological algebras by projective limits** pp. 144-157
M. Abel
