

BIOMETRIKA

Volume 45

Contents

Parts 1 and 2, June 1958

Memoirs:

ARMITAGE, P. Numerical studies in the sequential estimation of a binomial parameter. LESLIE, P. H. A stochastic model for studying the properties of certain biological systems by numerical methods. SKELLAM, J. G. On the derivation and applicability of Neyman's Type A distribution. BLISS, C. I. & OWEN, A. R. G. Negative binomial distributions with a common k . BRASS, W. Simplified methods of fitting the truncated negative binomial distribution. COX, D. R. The interpretation of the effects of non-additivity in the latin square. ASHFORD, J. R. Quantal responses to mixtures of poisons under conditions of simple similar action—the analysis of uncontrolled data. MOORE, P. G. Some properties of runs in quality control procedures. WILLIAMS, E. J. Simultaneous regression equations in experimentation. RUSSELL, T. S. & BRADLEY, R. A. One-way variances in a two-way classification. PLACKETT, R. L. Studies in the history of probability and statistics. VII. The principle of the arithmetic mean. BROWN, R. L. & FEREDAY, F. Multivariate linear structural relations. OLKIN, I. Multivariate ratio estimation for finite populations. BARTON, D. E., DAVID, F. N. & MALLOWS, C. L. Non-randomness in a sequence of two alternatives. I. Wilcoxon's and allied test statistics. GOODMAN, L. A. Simplified runs tests and likelihood ratio tests for Markoff chains. LEIPNIK, R. B. Moment generating functions of quadratic forms in serially correlated normal variables. SAW, J. G. Moments of sample moments of censored samples from a normal population. HERDAN, G. The relation between the dictionary distribution and the occurrence distribution of word length and its importance for the study of quantitative linguistics. MACKENZIE, J. K. Second paper on statistics associated with the random disorientation of cubes. WAUGH, W. A. O'N. Conditioned Markov processes.

Miscellanea: Contributions by D. E. BARTON, D. E. BARTON & F. N. DAVID, H. BERGSTROM, C. W. CLUNIES-ROSE, H. R. B. HACK, M. HALPERIN & S. W. GREENHOUSE, G. HERDAN, A. HUITSON, N. L. JOHNSON, J. E. KERRICH, R. D. LORD, R. MAURICE

Corrigenda: F. N. DAVID & M. G. KENDALL: A. J. MAYNE: E. L. CROW

The subscription, payable in advance, is now 54/- (or \$8.00), per volume (including postage). Cheques should be made payable to *Biometrika*, crossed "a/c Biometrika Trust" and sent to the Secretary, Biometrika Office, Department of Statistics, University College, London, W.C.1. All foreign cheques must be drawn on a Bank having a London agency.

Issued by THE BIOMETRIKA OFFICE, University College, London

Colloquium Publications, Volume XXXI, Revised edition.

FUNCTIONAL ANALYSIS AND SEMI-GROUPS

by EINAR HILLE and RALPH S. PHILLIPS

This is a completely revised and largely rewritten edition of the Colloquium volume of the same name by the first author. The framework of the earlier book has been kept, but the subject matter has been rearranged and much expanded. The algebraic tools are introduced much earlier and put to important use throughout the treatise. Functional analysis occupies almost one third of the book. The sections devoted to the analytical theory of semi-groups have been augmented by new material on perturbation theory, adjoint theory, spectral theory, operational calculus, and stochastic theory.

TRABAJOS DE ESTADISTICA

Review published by "Instituto de Investigaciones Estadísticas" of the "Consejo Superior de Investigaciones Científicas." Madrid, Spain.

Vol. IX

CONTENTS

Cuaderno I

P. G. MOORE.....	The ranges in small and correlated samples.
P. ZOROA.....	Nota sobre la definición de juegos equivalentes.
NOTAS.	
P. ZOROA.....	Aplicaciones a la teoría de juegos.
G. ARNAIZ.....	Problemas de regresión y correlación.
L. AROCAS.....	El Instituto de Estadística Matemática del Japón.
A. MARTINEZ MIRANDA.....	Obtención de las curvas de oferta y demanda de bienes agrícolas en España, en los años 1923-34, por el método de los mínimos cuadrados.
Cronica.	Bibliografia.
	Cuestiones y ejercicios propuestos.

For everything in connection with works, exchanges and subscription write to Professor Sixto Ríos, Instituto de Investigaciones Estadísticas, Consejo Superior de Investigaciones Científicas (Serrano, 123). Madrid, Spain. The Review is composed of three fascicles published three times a year (about 350 pages), and its annual price is 100 pesetas for Spain and South America and \$4.00 U.S.A. for all other countries.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS

President:

L. J. Savage, Department of Statistics, University of Chicago, Chicago 37,
Illinois

President-Elect:

J. Wolfowitz, Department of Mathematics, Cornell University, Ithaca,
New York

Secretary:

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina,
Chapel Hill, North Carolina

Treasurer:

A. H. Bowker, Department of Statistics, Stanford University, Stanford,
California

Editor:

T. E. Harris, The RAND Corporation, 1700 Main Street, Santa Monica,
California

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year for residents of the United States or Canada and \$5.00 per year for residents of other countries. There are special rates for students and for some other classes of members. Inquiries regarding membership in the Institute should be sent to the Secretary of the Institute.

Contents (continued)

Nonparametric Estimation of Sample Percentage Point Standard Deviation	JOHN E. WALSH	601
A Uniqueness Property not Enjoyed by the Normal Distribution... GEORGE P. STECK	604	
Estimation of a Regression Line with Both Variable Subject to Error Under an Unusual Identification Condition	HERMAN RUBIN	606
On the Decomposition of Certain χ^2 Variables	ROBERT V. HOGG AND ALLEN T. CRAIG	608
A Note on the Generation of Random Normal Deviates	G. E. P. BOX AND MERVIN E. MULLER	610
On a Theorem in Metric Spaces.....	V. S. VARADARAJAN AND R. RANGA RAO	612
Abstracts of Papers.....		614
News and Notices.....		624
Report of the Gatlinburg, Tennessee Meeting.....		631
Publications Received.....		634

**MEETINGS OF THE INSTITUTE
TENTATIVE SCHEDULE**

ANNUAL MEETING (with American Mathematical Society)—Cambridge, Massachusetts, August 25-28, 1958. CENTRAL REGIONAL MEETING—Cleveland, Ohio, April 2-4, 1959.

Abstracts should be submitted in duplicate to the Editor, preferably on abstract blanks, which can be obtained from the IMS Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Those received by April 30 will appear in the September *Annals*, by July 31 in December, etc. Abstracts should be limited to 200 words or the equivalent, and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if transmitted by members.
