BAYESIAN ANALYSIS

Nonparametric Estimation of Kullback-Leibler Information Illustrated by Evaluating Goodness of Fit.....	K. Viele	239
Bayesian Multivariate Areal Wombling for Multiple Disease Boundary Analysis.....	H. Ma and B. P. Carlin	281
Bayesian encompassing specification test under not completely known partial observability	C. Almeida and M. Mouchart	303
Local Influence on Posterior Distributions under Multiplicative Modes of Perturbation	A. van der Linde	319
A gamma model for DNA mixture analyses.....	R. G. Cowell, S. L. Lauritzen and J. Mortera	333
Bayesian inference for an extended simple regression measurement error model using skewed priors	J. Rodrigues and H. Bolfarine	349
Assessment of Locally Influential Observations in Bayesian Models.....	R. B. Millar and W. S. Stewart	365
Importance Re-sampling MCMC for Cross-Validation in Inverse Problems	S. Bhattacharya and J. Haslett	385
Identifying outliers in Bayesian hierarchical models: a simulation-based approach	E. C. Marshall and D. J. Spiegelhalter	409
