

OFFICIAL COMMUNICATIONS

Meetings of the Society have been fixed at the following times and places:

NEW YORK CITY, October 28, 1933.

Abstracts must be in the hands of Associate Secretary J. R. Kline, 501 West 116th St., New York City, not later than October 7. Professor R. L. Jeffery will deliver an address on *Theories of integration*. Abstracts received by the Secretaries by September 9 will appear in the September issue of the BULLETIN.

CINCINNATI, OHIO, December 1-2, 1933.

Abstracts must be in the hands of Associate Secretary M. H. Ingraham, University of Wisconsin, Madison, Wis., not later than November 11. Abstracts received by the Secretaries by November 4 will appear in the November issue of the BULLETIN. A joint meeting regarding spinor analysis will be held with the Physical Society; Professor Oswald Veblen will represent the Society at this meeting; and Professor Otto La Porte will speak on *Spinor analysis*. Professor R. D. Carmichael will deliver an address entitled *Functions of exponential type*.

PASADENA, CALIFORNIA, December 2, 1933.

Abstracts must be in the hands of Associate Secretary T. M. Putnam, University of California, Berkeley, Calif., not later than November 11. Abstracts received by the Secretaries by November 4 will appear in the November issue of the BULLETIN.

CAMBRIDGE, MASSACHUSETTS, ANNUAL MEETING, December 27-29, 1933.

This meeting is to be held in conjunction with the A.A.A.S. and the M.A.A. There will be a symposium on *General Analysis*. The Bôcher Prize will be awarded. Abstracts must be in the hands of the Secretary of the Society, 501 West 116th St., New York City, not later than November 30, 1933. Abstracts received by the Secretaries by November 4 will be published in the November issue of the BULLETIN.

R. G. D. RICHARDSON, *Secretary of the Society*.

Articles for insertion in the BULLETIN should be addressed to E. R. HEDRICK, Editor of the BULLETIN, University of California at Los Angeles. Reviews should be sent to W. R. LONGLEY, Yale University, New Haven, Conn. Notes should be sent to H. W. KUHN, Ohio State University, Columbus, Ohio.

Subscriptions to the BULLETIN, orders for back numbers, and inquiries in regard to non-delivery of current numbers should be addressed to the American Mathematical Society, 450-459 Ahnaip St., Menasha, Wis., or 501 West 116th St., New York.

The initiation fees and the annual dues of members of the Society (see this BULLETIN, p. 322, May, 1930; and the List of Officers and Members, September, 1932, p. 66), are payable to the Treasurer of the Society, Professor G. W. Mullins, 501 West 116th St., New York City.

WHOLE NUMBER 409

CONTENTS

	PAGE
Quantum Mechanics and Asymptotic Series. By G. D. BIRKHOFF.....	681
Recent Progress on Waring's Theorem and its Generalizations. By L. E. DICKSON:.....	701
Abstract Ideal Theory. By OYSTEIN ORE.....	728
Normal Division Algebras over Algebraic Number Fields not of Finite Degree. By A. A. ALBERT.....	746
Further Mean-Value Theorems. By MORRIS MARDEN..	750
On the Number of Apparent Double Points on a Certain V_k^n in an S_{2k+1} . By B. C. WONG.....	755
Quadratic Residues in Factorization. By MARSHALL HALL	758
A Complete Census of 4×4 Magic Squares. By D. N. LEHMER.....	764
On the Theory of Fourier Transforms. By EINAR HILLE and J. D. TAMARKIN.....	768
Note on the Location of the Critical Points of Green's Function. By J. L. WALSH.....	775
Simplification of the Set of Four Postulates for Boolean Algebras in Terms of Rejection. By B. A. BERNSTEIN	783
On Section A of <i>Principia Mathematica</i> . By B. A. BERNSTEIN.....	788
On Natural Families of Curves. By C. H. ROWE.....	793
On the Condition that two Zehfuss Matrices be Equal. By D. E. RUTHERFORD.....	801
A Plane Elliptic Curve of Order $4k+2$, with Singularities all Real and Distinct, and Autopolar by $4k+4$ Conics. By D. C. DUNCAN.....	809
An Inverse Problem in Differential Equations. By R. E. LANGER.....	814
On the Summability and Generalized Sum of a Series of Legendre Polynomials. By W. C. BRENKE.....	821
Errata.....	824
