

## **Information for authors**

### **Submission of manuscripts**

The Illinois Journal of Mathematics endeavors to publish original research articles of high quality in all areas of mathematics. Manuscripts, in duplicate, should be sent to the Illinois Journal of Mathematics, University of Illinois, 1409 West Green St., Urbana, Illinois 61801, USA, or directly to one of the editors listed on the inside front cover. The cover letter should include the name, address, and e-mail address (if available) of the author to whom correspondence should be sent.

The submission of a paper implies the author's assurance that it has not been published or submitted for publication elsewhere. All papers will be refereed, and the decision to publish a paper rests solely with the editors. Authors are asked to sign a copyright transfer agreement upon acceptance of their paper.

### **Preparation of manuscripts**

If possible, papers should be typeset in one of the standard flavors of  $\text{\TeX}$ . We prefer papers prepared in  $\text{\LaTeX}$  or  $\text{\LaTeX}2\epsilon$ , but we can also handle other versions of  $\text{\TeX}$ . After a paper has been accepted, the author will be contacted with instructions on submitting electronic files. However, for the initial submission of a paper, and for the submission of any revised versions, hard copies are required.

All papers should include a brief abstract. The abstract should involve as little mathematical notation as possible and have no displayed formulas since, upon acceptance of the paper, the abstract will be published on the IJM website.

The paper should also include the 2000 Mathematics Subject Classification number(s). A list of classification numbers can be found in the December issue of Mathematical Reviews.

### **Offprints**

Fifty offprints will be provided free of charge; in case of multiple authors, each author will receive twenty-five offprints. Additional offprints may be purchased.

### **Website and e-mail address**

More information about the Illinois Journal of Mathematics, including tables of contents of past issues and a list of forthcoming articles, can be found on the Journal's website <http://www.math.uiuc.edu/~ijm>. The Journal's e-mail address is [ijm@math.uiuc.edu](mailto:ijm@math.uiuc.edu).
