

CONTENTS

| | |
|--|------|
| Wenxia LI and Dongmei XIAO , The dimensions of self-similar sets | 789 |
| John HUNTON, Mamoru MIMURA, Tetsu NISHIMOTO and Björn SCHUSTER , Higher v_n torsion in Lie groups | 801 |
| Atsushi FUJIOKA , Actions of loop groups on simply connected H -surfaces in space forms | 819 |
| Stevo TODORCEVIC , The first derived limit and compactly F_σ sets | 831 |
| Junya YOSHIZAKI , On the structure of the singular set of a complex analytic foliation | 837 |
| Yoshiroh MACHIGASHIRA , The Gaussian curvature of Alexandrov surfaces | 859 |
| Mark Andrea A. de CATALDO , Codimension two nonsingular subvarieties of quadrics: scrolls and classification in degree $d \leq 10$ | 879 |
| Masafumi YOSHINO , Small divisor problems and divergent formal power series solutions | 903 |
| Hideki OMORI, Yoshiaki MAEDA, Naoya MIYAZAKI and Akira YOSHIOKA , Noncommutative 3-sphere: A model of noncommutative contact algebras | 915 |
| Hiroki SATO , Jørgensen's inequality for classical Schottky groups of real type | 945 |
| Takesi KAWASAKI , On Macaulayfication of certain quasi-projective schemes | 969 |
| Hajime SATO and Atsuko Yamada YOSHIKAWA , Third order ordinary differential equations and Legendre connections | 993 |
| Kazuo TANIGUCHI , Gevrey regularizing effect for a nonlinear Schrödinger equation in one space dimension | 1015 |
