

NAGOYA  
MATHEMATICAL JOURNAL

VOL. 71

November 1978

PUBLISHED BY  
DEPARTMENT OF MATHEMATICS, FACULTY OF SCIENCE  
NAGOYA UNIVERSITY

Correspondences concerning subscription, and back issues  
of the journal should be addressed to

KINOKUNIYA BOOK-STORE CO., LTD.  
17-7 Shinjuku 3-chome, Shinjuku-ku  
TOKYO 160-91 JAPAN

or

KINOKUNIYA BOOK STORES  
OF AMERICA CO., LTD.  
West Bldg., Japanese Cultural and  
Trade Center  
1581 Webster St.,  
San Francisco, CALIFORNIA 94115,  
U.S.A.

The annual subscription price for 1978 is about \$ 83.00

# NAGOYA MATHEMATICAL JOURNAL

VOL. 71

November 1978

Edited by

KAZUHIKO AOMOTO, TAKEYUKI HIDA, NOBORU ITO, TOMIO KUBOTA  
(Managing Editor), HIDEYUKI MATSUMURA, HISASI MORIKAWA,  
AKIHIKO MORIMOTO, KATUZI ONO, YOSHIHIRO SHIKATA,  
KÔSAKU YOSIDA

PUBLISHED BY  
DEPARTMENT OF MATHEMATICS, FACULTY OF SCIENCE  
NAGOYA UNIVERSITY

Nagoya Mathematical Journal is, in principle, the official organ of the Department of Mathematics, Nagoya University, designed solely for the publication of research papers. However, some invited papers and other original papers in mathematics from all over the world are also regularly published in Nagoya Mathematical Journal. Currently, 4 volumes are published each year.

All manuscripts should be typewritten in English, French, or German with sufficient space between lines, and special letters such as bold-face, German, Greek, and script should be clearly marked. All single letters used in formulas will appear in italic, and mathematical symbols will appear in the standard style usual for mathematical literature. Therefore, it is not required to mark such letters and symbols. Instructions which conflict with the general printing rules of the journal will not be accepted. For example, each paragraph title should appear in bold-face. Good reproductions of a typewritten manuscript are acceptable.

As soon as we receive a manuscript, a receipt will be sent to the author. When a manuscript has been sent to a referee, the author will receive another notice. These receipts and notices, however, do not mean anything regarding the acceptability of the paper for publication. If the editorial committee has decided to accept a paper, the author will receive a notice containing the number of the volume in which the paper will appear.

Each author, as well as each co-author, will have 100 reprints, while only one set of proof will be prepared per paper for proof-reading by the author(s). Therefore, a joint paper must carry instructions as to whom the proof should be sent. Attached to the proof, an order form will be sent to the author for the additional reprints which are available at approximately 3¢ per page.

The actual business of the Nagoya Mathematical Journal is performed by the managing editor with the cooperation of editors residing in Nagoya.

The manuscript and general correspondence should be addressed to: Managing editor, Nagoya Mathematical Journal, Department of Mathematics, Faculty of Science, Nagoya University, Chikusa-ku, Nagoya, 464, Japan.

## CONTENTS

---

The rank of syzygies under the action by a finite group .....	S. GOTO 1
Remarks to the uniqueness problem of meromorphic maps into $P^N(C)$ , I .....	H. FUJIMOTO 13
Remarks to the uniqueness problem of meromorphic maps into $P^N(C)$ , II .....	H. FUJIMOTO 25
$p$ -Adic properties of Siegel modular forms of degree 2 .....	S. NAGAOKA 43
On the central class field mod $m$ of Galois extensions of an algebraic number field .....	S. SHIRAI 61
A remark concerning the 2-adic number field .....	S. SHIRAI 87
Remarks on the curvature of hypersurfaces in $C^n$ .....	T. SASAKI and K. SHIGA 91
Some examples of stochastically stable homeomorphisms .....	T. SASAKI 97
Local energy decays for wave equations with time-dependent coefficients .....	H. TAMURA 107
On the decay of the local energy for wave equations with a moving obstacle .....	H. TAMURA 125
On the Doi-Naganuma lifting associated with imaginary quadratic fields .....	T. ASAI 149
A remark on the Grothendieck-Lefschetz theorem about the Picard group .....	L. BĂDESCU 169

Construction of a solution of a certain evolution equation II ...	
.....	A. SHIMIZU 181
