## CONTENTS

---

Block Idempotents and Normal $p$ -Subgroups. ....	W. F. REYNOLDS 1
Reinforced Logics. ....	K. ONO 15
Multiply Harmonic Functions. ....	K. GOWRISANKARAN 27
Classes of Equations of the Type $y' = x^3 + k$ Having No Rational Solutions. .....	H. M. EDGAR 49
Mutual Contradiction of Two Self-Consistent Abstractions. ....	K. ONO 59
On the Characters of the Prolonged Differential System. ....	I. HAYASHI 63
A Formalism for the Classical Sentence-Logic. ....	K. ONO 69
Formal System Having Just One Primitive Notion. ....	K. ONO 73
On Development of Formal Systems Starting from Primitive Logic. ... .....	K. ONO 79
Crossed Products and Ramification. ....	S. WILLIAMSON 85
Taboo Versus Axiom. ....	K. ONO 113
On Analytic Families of Compact Riemann Surfaces with Non-trivial Automorphisms. ....	A. KURIBAYASHI 119
Finite Dimensional Approximations to Some Flows on the Projective Limit Space of Spheres. ....	H. NOMOTO 167
On Systems of Self Consistent Abstractions. ....	Y. INOUE 179
On the Asymptotic Behavior of Functions Harmonic in a Disc. .... .....	J. E. McMILLAN 187
On a Characteristic Feature of the Positive Logics. ....	K. ONO and J. ITO 193
A Lemma which Distinguishes Minimal Logics from Other Logics. .... .....	K. ONO 197
Characterizations of Supports of Balayaged Measures. ....	M. ITO 203
