

## CONTENTS

---

	Page
K. II, Geometric quantization for the mechanics on spheres .....	289
E.-I. HANZAWA, Classical solutions of the Stefan problem .....	297
M.-N. ISHIDA AND T. ODA, Torus embeddings and tangent complexes .....	337
H. KOMATSU, A general interpolation theorem of Marcinkiewicz type .....	383
K. TSUKADA, The first eigenvalue of the Laplacian on tori.....	395
H. FURUSAWA, The Hausdorff dimension of limit sets of some Fuchsian groups .....	409
S. IGARI, Decomposition theorem and lacunary convergence of Riesz-Bochner means of Fourier transforms of two variables.....	413
T. KATO AND I. SATAKE, An algebraic theory of Landau- Kolmogorov inequalities .....	421
