PROBABILITY

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Articles

Mean-variance hedging in continuous time	J. DARRELL DUFFIE AND HENRY R. RICHARDSON	1
Steady-state analysis of RBM in a rectangle: Numerical methods and a queueing application	J. G. DAI AND J. M. HARRISON	16
Geometric bounds for eigenvalues of Markov chains	PERSI DIACONIS AND DANIEL STROOCK	36
Eigenvalue bounds on convergence to stationarity for nonreversible Markov chains, with an application to the exclusion process	JAMES ALLEN FILL	62
Loud shot noise	R. A. DONEY AND GEORGE L. O'BRIEN	88
Queues with server vacations and Lévy processes with secondary jump input	OFFER KELLA AND WARD WHITT	104
On the properties of a tree-structured server process	J. KOMLÓS, A. ODLYZKO, L. OZAROW AND L. A. SHEPP	118
Implicit renewal theory and tails of solutions of random equations . .	CHARLES M. GOLDIE	126
Forcing a stochastic process to stay in or to leave a given region	MARIO LEFEBVRE	167

Vol. 1, No. 1—February 1991

INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

The purpose of the Institute is to foster the development and dissemination of the theory and applications of statistics and probability.

OFFICERS AND EDITORS

- President:** David O. Siegmund, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305
- President-Elect:** Willem R. van Zwet, Department of Mathematics, University of Leiden, P.O. Box 9512, 2300 RA Leiden, The Netherlands
- Past President:** Shanti S. Gupta, Department of Statistics, Purdue University, West Lafayette, Indiana 47907
- Executive Secretary:** Diane M. Lambert, AT&T Bell Laboratories, 600 Mountain Avenue, Room 2C-256, Murray Hill, New Jersey 07974
- Treasurer:** Jessica Utts, Division of Statistics, University of California, Davis. *Please send correspondence to:* IMS Business Office, 3401 Investment Boulevard #7, Hayward, California 94545
- Program Secretary:** Robert E. Kass, Department of Statistics, Carnegie Mellon University, Pittsburgh, Pennsylvania 15213
- Editor, *The Annals of Statistics*:** Arthur Cohen, Department of Statistics, Busch Campus, Rutgers University, New Brunswick, New Jersey 08903
- Editor, *The Annals of Probability*:** Burgess Davis, Departments of Mathematics and Statistics, Purdue University, West Lafayette, Indiana 47907
- Editor, *The Annals of Applied Probability*:** J. Michael Steele, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302
- Executive Editor, *Statistical Science*:** Carl N. Morris, Department of Statistics, Science Center, Harvard University, One Oxford Street, Cambridge, Massachusetts 02138
- Editor, *The IMS Bulletin*:** George P. H. Styan, Department of Mathematics and Statistics, Burnside Hall, McGill University, 805 Sherbrooke Street West, Montreal PQ, Canada H3A 2K6
- Editor, *The IMS Lecture Notes—Monograph Series*:** Robert J. Serfling, Department of Mathematical Sciences, Johns Hopkins University, Baltimore, Maryland 21218
- Managing Editor:** Roger L. Berger, Department of Statistics, Box 8203, North Carolina State University, Raleigh, North Carolina 27695
- Managing Editor:** Paul Shaman, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302

Journals. The scientific journals of the Institute are *The Annals of Statistics*, *The Annals of Probability*, *The Annals of Applied Probability* and *Statistical Science*. The news organ of the Institute is *The Institute of Mathematical Statistics Bulletin*.

Individual and Organizational Memberships. All individual members receive *The IMS Bulletin* for basic membership dues of \$40. Each regular member must elect to receive at least one scientific journal for an additional amount, as follows: *Statistical Science* (\$10), *The Annals of Statistics* or *The Annals of Probability* (\$20), *The Annals of Statistics* and *The Annals of Probability* (\$30), or *The Annals of Applied Probability* (\$10). Of the total dues paid, \$24 is allocated to *The IMS Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received. Reduced membership dues are available to full-time students, permanent residents of countries designated by the IMS Council and retired members. Retired members may elect to receive the *Bulletin* only for \$16. *Organizational memberships* are available to nonprofit organizations at \$350 per year and to for-profit organizations at \$650 per year. Organizational memberships include two multiple-readership copies of all IMS journals in addition to other benefits specified for each category (details available from the IMS Business Office).

Individual and General Subscriptions. Subscriptions are available on a calendar-year basis. *Individual subscriptions* are for the personal use of the subscriber and must be in the name of, paid directly by, and mailed to an individual. Individual subscriptions for 1991 are available to *The Annals of Statistics* and *The Annals of Probability* (\$90), *The Annals of Statistics* or *The Annals of Probability* (\$60), *Statistical Science* (\$50), *The Annals of Applied Probability* (\$50), and *The IMS Bulletin* (\$30). *General subscriptions* are for libraries, institutions and any multiple-readership use. General subscriptions for 1991 are available to *The Annals of Statistics* (\$110), *The Annals of Probability* and *The Annals of Applied Probability* (\$150), *Statistical Science* (\$60), *The Annals of Applied Probability* only (\$60), and *The IMS Bulletin* (\$40). Multiple-item subscriptions are discounted by 10% for two items and 15% for three or more items. Air mail rates for delivery outside of North America are \$65 per title.

Correspondence. Mail to IMS should be sent to the IMS Business Office (membership, subscriptions, claims, copyright permissions, advertising, back issues), the Editor of the appropriate journal (submissions, editorial content) or the Production Editor, Patrick Kelly, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302.

***The Annals of Applied Probability* (ISSN 1050-5164)**, Volume 1, Number 1, February, 1991. Published quarterly by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545. Application to mail at second-class postage rates is pending at Hayward, California and additional mailing offices. **POSTMASTER:** Send address changes to *The Annals of Applied Probability*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545.

PAUL SHAMAN

PRODUCTION EDITOR
PATRICK KELLY

EDITORIAL POLICY

The main purpose of *The Annals of Applied Probability*, *The Annals of Probability* and *The Annals of Statistics* is to publish contributions to the theory of probability and statistics and to their applications. The emphasis is on importance and interest; formal novelty and mathematical correctness alone are not sufficient. Also appropriate are authoritative expository papers and surveys of areas in vigorous development. All papers are refereed.

NOTICE

Manuscripts submitted for publication in *The Annals of Applied Probability* should be sent to the Editor at the following address:

J. Michael Steele
Department of Statistics
University of Pennsylvania
Philadelphia, Pennsylvania 19104-6302

THE ANNALS OF APPLIED PROBABILITY

INSTRUCTIONS FOR AUTHORS

Submission of Papers. Papers to be submitted for publication should be sent to the Editor of *The Annals of Applied Probability*. (For current address, see the latest issue of the *Annals*.) Three copies should be submitted on paper that will take ink corrections. The manuscript will *not* normally be returned to the author; when expressly requested by the author, one copy of the manuscript will be returned.

Preparation of Manuscripts. Manuscripts should be typewritten, entirely double-spaced, including references, with wide margins at sides, top and bottom. All copies must be completely legible. When technical reports are submitted, all extraneous sheets and covers must be removed. Typists should check an issue of the *Annals* for style.

Submission of Reference Papers. Two copies of unpublished or not easily available papers cited in the manuscript should be submitted with the manuscript.

Title. The title should be descriptive and as concise as is feasible, i.e., it should indicate the topic of the paper as clearly as possible, but every word in it should be pertinent.

Abbreviated Title. An abbreviated title to be used as a running head is also required. This should normally not exceed 35 characters. For example, an article with the title "A Limit Theorem for Conditioned Recurrent Random Walk Attracted to a Stable Law" could have the running head, "Limit Theorem for Recurrent Random Walk" or possibly "Recurrent Random Walk Attracted to a Stable Law" depending on the emphasis to be conveyed.

Affiliation. Indicate your present institutional affiliation as you would like it to appear. List your permanent mailing address after the references.

Summary. Each manuscript is required to contain a summary, clearly separated from the rest of the paper, which will be printed immediately after the title. Its main purpose is to inform the reader quickly of the nature and results of the paper; it may also be used as an aid in retrieving information. The length of a summary will clearly depend on the length and difficulty of the paper, but in general it should not exceed 150 words. Formulas should be used as sparingly as possible within the summary. The summary should not make reference to results or formulas in the body of the paper—it should be self-contained.

Footnotes. Footnotes should not be used, except as described under Title Page Footnotes below. Such information should be included within the text.

Title Page Footnotes. Included as a footnote on page 1 should be the headings:

American Mathematical Society 1980 subject classifications. Primary—; secondary—.
Key words and phrases.

The classification numbers representing the primary and secondary subjects of the article may be found with instructions for its use in the *Mathematical Reviews Annual Subject Index-1980*. The key words and phrases should describe the subject matter of the article; generally they should be taken from the body of the paper.

Acknowledgment of support. Grants and contracts should also be included in this footnote.

Identification of Symbols. Manuscripts for publication should be clearly prepared to insure that all symbols are properly identified. Distinguish between "oh" and "zero"; "ell" and "one", "epsilon" and "element of"; "summation" and "capital sigma," etc. Indicate also when special type is required (Greek, German, script, boldface, etc.); unless indicated otherwise, formula letters will be set in italics. Acronyms should be introduced sparingly. Any handwritten symbols should be clearly identified.

Figures and Tables. Figures, charts, and diagrams should be prepared in a form suitable for photographic reproduction and should be professionally drawn twice the size they are to be printed. (These need not be submitted until the paper has been accepted for publication.) The printer does not improve upon the quality of the figures submitted. Tables should be typed on separate pages with accompanying footnotes immediately below the table.

Formulas. Fractions *in the text* are preferably written with the solidus or negative exponent; thus,

$$(a + b)/(c + d) \text{ is preferred to } \frac{a + b}{c + d}, \text{ and } (2\pi)^{-1}$$

$$\text{or } 1/(2\pi) \text{ to } \frac{1}{2\pi}. \text{ Also, } a^{b(c)} \text{ and } a_{b(c)} \text{ are preferred}$$

to a^{b^c} and a_{b^c} , respectively. Complicated exponentials should be represented with the symbol exp. A fractional exponent is preferable to a radical sign.

References. References should be typed double-spaced and should follow the style:

Révész, P. (1982). On the increments of Wiener and related processes. *Ann. Probab.* **10** 613–622.

In textual material, the format "... Révész (1982)..." should be used. Multiple references can be distinguished as "... Révész (1982a)..." Abbreviations for journals should be taken from a current index issue of *Mathematical Reviews*.

Addresses. The permanent address of each author should be typed following the references.

Galley Proofs. The author will ordinarily receive galley proofs. Corrected galley proofs should be sent to: AAP Redactory, Science Typographers, Inc., 15 Industrial Boulevard, Medford, NY 11763.
