

- 693 **The approximate pseudorandom walk accompanied by the pseudostochastic process corresponding to a higher-order heat-type equation**
Tadashi Nakajima and Sadao Sato
- 717 **Regular functions on spherical nilpotent orbits in complex symmetric pairs: Classical non-Hermitian cases**
Paolo Bravi, Rocco Chirivì, and Jacopo Gandini
- 789 **On the geometry of the Lehn–Lehn–Sorger–van Straten eightfold**
Evgeny Shinder and Andrey Soldatenkov
- 807 **Lattice multipolygons**
Akihiro Higashitani and Mikiya Masuda
- 829 **The moduli of representations of degree 2**
Kazunori Nakamoto
- 903 **Index to Volume 57**
