

**CORRECTION NOTE:  
ON OCCUPATION TIME FUNCTIONALS FOR  
DIFFUSION PROCESSES AND BIRTH-AND-DEATH  
PROCESSES ON GRAPHS**

*The Annals of Applied Probability* **11** 544–567

BY MATTHIAS WEBER

*Technische Universität Dresden*

Three formulas in this article appeared in a form different from the original submitted manuscript and the corrections to the page proofs. These misprints concern the representation of continued fractions in formula (6.1) on page 560, and in formulas (6.6) and (6.7) on page 561. They should have appeared as follows:

$$(6.1) \quad Q(z) = a_0 + \sum_1^b \frac{\sigma_i}{z_i - z} \\ = a_0 + \cfrac{1}{-b_1 z} + \cfrac{1}{a_1} + \cfrac{1}{-b_2 z} + \cdots + \cfrac{1}{-b_n z} + \cfrac{1}{a_n},$$

$$(6.6) \quad Q_i(z) = a_0^i + \cfrac{1}{-b_q^i z} + \cfrac{1}{a_1^i} + \cfrac{1}{-b_2^i z} + \cdots + \cfrac{1}{-b_{n_i}^i z} + \cfrac{1}{a_{n_i}^i},$$

$$(6.7) \quad Q(z) = a_0^1 + \cfrac{1}{-b_1^1 z} + \cfrac{1}{a_1^1} + \cfrac{1}{-b_2^1 z} + \cdots + \cfrac{1}{-b_n^1 z} + \cfrac{1}{\frac{\alpha_1}{\alpha_2} Q_2(z)}.$$
