SAMPLING FROM LOG-CONCAVE DISTRIBUTIONS

BY BY ALAN FRIEZE, RAVI KANNAN AND NICK POLSON

The Annals of Applied Probability (1994) **3** 812–837

The first inequality of Theorem 1 contains an unfortunate error. The term $\frac{3}{1 - \lambda_1}$ should read $\frac{3}{\lambda_1}$. The same error has propagated to the statement of Corollary 1.
