

ACKNOWLEDGMENT OF PRIORITY

ACKNOWLEDGMENT OF PRIORITY

BY C. B. BELL AND K. A. DOKSUM

San Diego State College and University of California, Berkeley

In connection with our article "Some New Distribution-free Statistics", *Ann Math. Statist.* **36** (1965) 203–214, we wish to acknowledge that remarks implying Lemma 2.1 of that article have been used by J. Durbin to construct exact tests similar to some of those given in our article. See J. Durbin, "Some Methods of Constructing Exact Tests", *Biometrika* **48** (1961) 41–55. The authors regret having overlooked this prior contribution of Professor Durbin.
