

Notice to Subscribers
of the
Annals of Mathematical Statistics

Plans were inaugurated in December, 1937, for the Institute of Mathematical Statistics to assume full responsibility for the Annals, beginning with Volume IX. However, it was not possible to complete the necessary arrangements soon enough to enable the Institute to edit the March number. Professor H. C. Carver very kindly consented to continue the editorial work through the present number. Beginning with the second number, that is, the June issue, the Institute will carry on the editorial work.

In the future, manuscripts intended for publication in the Annals should be sent to Professor S. S. Wilks, Fine Hall, Princeton University, Princeton, N. J.

The four dollar annual subscription rate for the Annals will remain unchanged. Subscription dues and orders for back numbers should hereafter be sent to Professor A. T. Craig, State University of Iowa, Iowa City, Iowa.

B. H. CAMP
*President, Institute of
Mathematical Statistics*
