

NOTE

CORRECTION TO "ON INVARIANT TESTS OF UNIFORMITY FOR DIRECTIONS AND ORIENTATIONS"

BY M. J. PRENTICE
University of Edinburgh

I am grateful to Professor Jon A. Wellner for pointing out a copying error in the above paper [1]. Near the end of page 172 all three references to

$$\frac{1}{2} - \frac{1}{2}p \left[\Gamma\left(\alpha + \frac{1}{2}\right) / \Gamma(\alpha + 1) \right]^2 \sin \theta$$

should be

$$\frac{1}{2} - (p/4) \left[\Gamma\left(\alpha + \frac{1}{2}\right) / \Gamma(\alpha + 1) \right]^2 \sin \theta.$$
