

CORRECTION

**GRAPHICAL MODELS FOR ASSOCIATIONS BETWEEN
VARIABLES, SOME OF WHICH ARE QUALITATIVE
AND SOME QUANTITATIVE**

BY S. L. LAURITZEN AND N. WERMUTH

The Annals of Statistics (1989) 17 31–57

Unfortunately misprints have obscured the definition of local strong reducibility. On page 52, line 3 from above, the implication sign should be reversed. Line 9 from above on the same page should read

$$\rho \in \Gamma \quad \text{or} \quad \text{adj}^*(\rho) \cap V(t) = \emptyset \quad \text{or} \quad \text{adj}^*(\rho) \cap \Gamma = \emptyset.$$

The last of these three possibilities had been left out. We are grateful to M. Frydenberg for pointing this out.
