

## VOLUME INDEX

- Anderson, D.D., *Idealization of a module*, 3.  
Ananthnarayan, H., *Computing Gorenstein colength*, 343.  
Brodmann, M., *Bounds for the Castelnuovo-Mumford regularity*, 197.  
Christensen, L.W., see Horwitz, N.  
Cooper, S.M., *Algebraic interpretation of a theorem of Clements and Lindström*, 361.  
Coykendall, J., *Preface*, 1.  
Dobbs, D.E., *On characterizations of integrality involving the lying-over and incomparable properties*, 227.  
Edidin, D., *Grassmannians and representations*, 381.  
Floystad, G., *Cellular resolutions of Cohen-Macaulay monomial ideals*, 57.  
Francisco, C.A., see Edidin, D.  
Frankild, A.J., *Relations between semidualizing complexes*, 393.  
Goff, M., *Bounding multiplicity by shifts in the Taylor resolution*, 437.  
Goto, Shiro, *Quasi-socle ideals in local rings with Gorenstein tangent cones*, 603.  
Götsch, T., see Brodmann, M.  
Hà, H.T., *Cohen-Macaulay admissible clutters*, 463.  
Hassler, W., *Properties of factorizations with successive lengths in one-dimensional local domains*, 237.  
Hassler, W., *Extended modules*, 481.  
Hellus, M., *Artinianness of local cohomology*, 269.  
Holm, Henrik, *Cotorsion pairs induced by duality pairs*, 621.  
Horwitz, N., *Introduction: Selected proceedings from two special sessions on commutative algebra sponsored by AMS*, 339.  
Houston, E., *Generating ideals in pullbacks*, 275.  
Hummel, L., *The Auslander-Bridger formula and the Gorenstein property for coherent rings*, 283.  
Ikeda, H., *The Dilworth lattice of Artinian rings*, 315.  
Jorgensen, D.A., *Minimal intersections and vanishing (co)homology*, 507.  
Jorgensen, David A., *On tensor products of rings and extension conjectures*, 635.  
Jørgensen, Peter, see Holm, Henrik.  
Kimura, Satoru, see Goto, Shiro.  
Loepp, Susan, *A class of local Noetherian domains*, 647.  
Loper, K.A., *A classification of the integrally closed rings of polynomials containing  $\mathbb{Z}[X]$* , 91.  
Marley, T., see Hummel, L.  
Matson, A., *Rings of finite rank and finitely generated ideals*, 537.  
Matsuoka, Naoyuki, see Goto, Shiro.  
Moore, W.F., see Jorgensen, D.A.  
Morey, S., see Hà, H.T.  
Nagel, U., *Properties of cut ideals associated to ring graphs*, 547.  
Oman, Greg, *On modules  $M$  for which  $N \cong M$  for every submodule  $N$  of size  $|M|$* , 679.  
Peeva, I., *Open problems on syzygies and Hilbert functions*, 159.  
Peeva, I., see Horwitz, N.  
Petrović, S., see Nagel, U.  
Phuong, Tran Thi, see Goto, Shiro.  
Roberts, L.G., see Cooper, S.M.

- Rotthaus, Christel, see Loepp, Susan.  
Sather-Wagstaff, S., *Maps on divisor class groups induced by ring homomorphisms of finite flat dimension*, 567.  
Sather-Wagstaff, S., see Frankild, A.J.  
Sather-Wagstaff, S., see Horwitz, N.  
Schenck, H., see Coykendall, J.  
Spiroff, S., see Sather-Wagstaff, S.  
Stillman, M., see Peeva, I.  
Striuli, J., see Horwitz, N.  
Sullivant, S., *A Gröbner basis for the secant ideal of the second hypersimplex*, 327.  
Stückrad, J., see Hellus, M.  
Sword, Sarah, see Loepp, Susan.  
Tartarone, F., see Loper, K.A.  
Taylor, A., see Frankild, A.J.  
Vassilev, J.C., *When is tight closure determined by the test ideal?*, 591.  
Villarreal, R.H., see Hà, H.T.  
Vraciu, A.N., see Vassilev, J.C.  
Watanabe, J., see Ikeda, H.  
Wiegand, R., see Hassler, W.  
Winders, M., see Anderson, D.D.
