

A SYMPOSIUM IN REAL ANALYSIS:
BOUNDED VARIATION AND ABSOLUTE CONTINUITY
IN FOURIER SERIES AND SURFACE AREA THEORY

Principal Speaker
Casper Goffman

July 19 - July 23, 1978

Western Illinois University

Registration for the symposium will begin at noon Wednesday, July 19 at the main desk in Tanner Conference Center. The symposium will officially begin Wednesday evening at 7:00 p.m. with Professor Goffman's opening address. There will be two working sessions per day each of Thursday, Friday, and Saturday and one session on Sunday, with ample time for informal discussions between sessions. The two types of sessions will consist of Professor Goffman's main lectures, and sessions for contributed papers. Persons wanting to present a paper in a related area of real analysis should submit an abstract of their talk prior to June 15, 1978.

Tanner Conference Center (T.C.C.) on the W.I.U. Campus will be used to house and feed participants. This center is subsidized by the university and thus provides quite reasonable accommodations and food at modest prices. The reservation form in this brochure should be used to request such accommodations. If an individual wishes to be considered for a T.C.C. room fee waiver and/or one of the finite number of \$50.00 expense grants, he should check the appropriate box(es) on the reservation form below.

RESERVATION FORM

Name: _____ Date & Time of Arrival: _____
Address: _____ Date & Time of Departure: _____

Please reserve the following accommodations in T.C.C.:

	Room Only	Room & Board
Single	6.50/day	13.50/day
Double	4.50/day	11.50/day

- I wish to be considered for a T.C.C. room fee waiver.
 I wish to be considered for an expense grant.
 I plan to submit an abstract prior to June 15, 1978.
