

EDITORIAL MESSAGES

By Paul D. Humke and Clifford E. Weil

Once again we have received help preparing manuscripts for publication from Professor Ronald O'Neill of the Mathematics Department at Michigan State University and from Ben Grommes, an undergraduate student at St. Olaf College, who worked very hard on many of the articles for this issue. We acknowledge their assistance with gratitude.

We are sad to report to those of our readers who may not have heard that Hana Kirchheim, wife of Bernd Kirchheim and daughter of Beloslav Riečan, died tragically in an automobile accident on Monday October 10, 1994. We extend our deepest sympathy to Hana's family. Also we must report the death of Professor Tadeusz Świątkowski. Please see the obituary in this issue for additional information.
