

CONFERENCE ANNOUNCEMENTS

THE NINETEENTH SUMMER SYMPOSIUM IN REAL ANALYSIS

WHEN: June 14–20, 1995

WHERE: Erice (Italy)

The National Research Council of Italy and the *Real Analysis Exchange* are sponsoring the Nineteenth Summer Symposium in Real Analysis. The host for the conference is the *Ettore Majorana Center for Scientific Culture* of Erice, in Sicily. The schedule will include hour long lectures by several principal speakers including A. Bruckner (Santa Barbara), U. Darji (Louisville), M. Laczkovich (Budapest), P. Mattila (Jyvaskyla), A. Olevskii (Tel Aviv), R. O'Malley (Milwaukee), D. Preiss (London), V. Skvortsov (Moscow), and B. Thomson (Vancouver) as well as fifteen twenty minute invited presentations by other conference participants. One third of the twenty minute lectures have been reserved for recent doctoral recipients several of whom have made significant contributions to the field in recent years.

PURPOSE:

The purposes of this nineteenth annual symposium in the series are at least threefold:

- to provide a forum within which the world's professional real analysts can discuss the recent advances in their discipline.
- to stimulate thinking about ways to attack current research problems in real analysis.
- to promote the establishment of new and effective research collaborations.

It is particularly important to the community of research real analysts that new researchers are introduced to the field. We have set aside several speaking slots for recent recipients of the Ph.D.

COSTS:

The conference fee of 600 US dollars per participant (Fees for non-participant guests will be about 400 US dollars. This fee will vary slightly depending on the services required.) includes all conference related expenses including accommodation, breakfast and two complete Italian meals per day, transportation between the Palermo airport and Erice, use of Xerox, e-mail, Fax and the registration fee. The *Arrival Day* for the conference is June 13th. The Scientific program will be held on June 14, 15, 16, 17 (morning), and 19. The closure of the conference and banquet will be in the evening of the 19th. Transportation leaves for the airport at various times on the 20th. The 18th has been reserved for an excursion. A limited amount of financial support is available; please contact the conference organizers at your earliest convenience (but before February 1, 1995) if you need or would like to be considered for such support.

THE AREA:

According to legend, Erice, son of Venus and Neptune, founded a small town on top of a mountain (750 meters above sea level) more than three thousand years ago. The great historian Thucydides (500 B.C.) said that the Elymi -founders of Erice- were survivors of the destruction of Troy. Ancient historians agreed that Erice was the oldest city in Europe.

Homer (1000 B.C.), Theocritus (300 B.C.), Polybius (200 B.C.), Virgil (50 B.C.), Horace (20 B.C.), and others have celebrated this magnificent spot in Sicily in their poems. In Erice you can admire the Castle of Venus, the Cyclopean Walls (800 B.C.) and the Gothic Cathedral (1300 A.D.). Erice is at present a mixture of ancient and medieval architecture. Other masterpieces of ancient civilization are to be found in the neighborhood: at Motya (Phoenician), Segesta (Elymian), and Selinunte (Greek).

Splendid beaches are at San Vito lo Capo, Scopello and a wild and rocky coast around Monte Cofano: all at less than one hour's drive from Erice.

MATHEMATICAL ANALYSIS AND STATISTICS THEORY AND APPLICATIONS

WHEN: July 10–13, 1995

WHERE: Gadjah Mada University, Yogyakarta, Indonesia.

This is a regional conference sponsored by SEAMS (Southeast Asian Mathematical Society). There will be seven invited speakers, two each from North America and Europe and three from Asia. The conference will be conducted in English

Yogyakarta is an old capital city in central Java and Gadjah Mada University is among the oldest universities in Indonesia. Direct international flights connect the city with Singapore and other centers of Southeast Asia. For those who wish to present a paper or book accommodations, please contact:

Professor Dr Soeparna Darmawijaya
Jurusan Matematika FMIPA
Universitas Gadjah Mada
Sekip Utara PO Box bls 21
Yogyakarta, Indonesia
(FAX: 62–274 63974)

posted by Lee Peng Yee (Singapore) (email: leepy@am.nie.ac.sg)

Pictured above are some of the participants who attended the conference in Charlottesville.

For the first time in its history, the **ANDY** was presented to the recipient in a container. The host, S. James Taylor, didn't use just any old box, but one in the shape of a star – an appropriate symbol for the person who received it, **Professor RALPH HENSTOCK** who truly is a star! We offer our congratulations to Professor Henstock.
