Ann. Funct. Anal.
Volume 1, Number 2, 2010

1 **Stability of a functional equation coming from the characterization of the absolute value of additive functions** pp. 1-6
A. Gilanyi; K. Nagatou; P. Volkmann

2 **Compact substitution operators on weighted spaces of continuous functions** pp. 7-11
H. Kamowitz; R.K. Singh; D. Wortman

3 **Lipschitz estimates for multilinear commutator of pseudo-differential operators** pp. 12-27
Z. Wang; L. Liu

4 **Furuta inequality and its related topics** pp. 28-45
M. Fujii

5 **Coupled fixed point, F-invariant set and fixed point of n-order** pp. 46-56
B. Samet; C. Vetro

6 **Moment problem of exponential monomials on Sturm-Liouville hypergroups** pp. 57-63
L. Vajday

7 **Erdos problem and quadratic equation** pp. 64-67
M. Eshaghi Gordji; M. Ramezani

8 **Hyers-Ulam stability of mean value points** pp. 68-74
P. Gavruta; S.-M. Jung; Y. Li

9 **Infinite-dimensional bicomplex Hilbert spaces** pp. 75-91
R. Gervais Lavoie; L. Marchildon; D. Rochon

10 **On a formula of Le Merdy for the complex interpolation of tensor products** pp. 92-102
C. Michels

11 **(δ, ε)-double derivations on Banach algebras** pp. 103-111
S. Hejazian; H. Mahdavian Rad; M. Mirzavaziri

12 **The Dirichlet-Jordan theorem for the Henstock-Fourier transform** pp. 112-120
F.J. Mendoza Torress

13 **Strong convergence theorems for family of relatively quasi nonexpansive mappings and systems of mixed equilibrium problems** pp. 121-132
Y. Shehu

14 **Oscillations, quasi-oscillations and joint continuity** pp. 133-138
A.K. Mirmostafaee
