

THE ANNALS *of* MATHEMATICAL STATISTICS

FOUNDED AND EDITED BY H. C. CARVER, 1930-1938

EDITED BY S. S. WILKS, 1938-1949

THE OFFICIAL JOURNAL OF THE INSTITUTE
OF MATHEMATICAL STATISTICS

Contents

	PAGE
Recent Advances in Sample Survey Theory and Methods.....	TORE DALENIUS 325
Sampling With Unequal Probabilities and Without Replacement H. O. HARTLEY AND J. N. K. RAO	350
The Scoring of Multiple Choice Questionnaires.....	HERMAN CHERNOFF 375
Some Thoughts on Statistical Inference.....	E. S. PEARSON 394
Uncertainty, Information, and Sequential Experiments.....	M. H. DEGROOT 404
Classification into Two Multivariate Normal Distributions with Different Covariance Matrices.....	T. W. ANDERSON AND R. R. BAHADUR 420
Two-Sample Comparisons of Dispersion Matrices for Alternatives of Intermediate Specificity.....	S. N. ROY AND R. GNANADESIKAN 432
A Sequential Procedure for Comparing Several Experimental Categories with a Stand- ard or Control.....	EDWARD PAULSON 438
Moment Estimators for the Parameters of a Mixture of Two Binomial Distributions W. R. BLISCHKE	444
Spectral Analysis with Regularly Missed Observations.....	RICHARD H. JONES 455
Comparison of Least Squares and Minimum Variance Estimates of Regression Param- eters.....	T. A. MAGNESS AND J. B. MCGUIRE 462
Exact and Approximate Power Function of the Non-Parametric Test of Tendency REGINA C. ELANDT	471
Rank Methods for Combination of Independent Experiments in the Analysis of Vari- ance.....	J. L. HODGES, JR. AND E. L. LEHMANN 482
Non-Parametric Tests for Scale.....	JEROME KLOTZ 498
Some Modified Kolmogorov-Smirnov Tests of Approximate Hypotheses and their Properties.....	JUDAH ROSENBLATT 513
On the Range of the Difference between Hypothetical Distribution Function and Pyke's Modified Empirical Distribution Function.....	H. D. BRUNK 525
A Characterization of the Multivariate Normal Distribution S. G. GHURYE AND INGRAM OLEIN	533
Probability Content of Regions Under Spherical Normal Distributions, IV: The Dis- tribution of Homogeneous and Non-Homogeneous Quadratic Functions of Normal Variables.....	HAROLD RUBEN 542
The Numerical Evaluation of Certain Multivariate Normal Integrals R. N. CURNOW AND C. W. DUNNETT	571
Tables to Facilitate the Computation of Percentage Points of the Non-Central <i>t</i> -Dis- tribution.....	GEORGE J. RESNIKOFF 580
Mutual Information and Maximal Correlation as Measures of Dependence... C. B. BELL	587
On the Order Structure of the Set of Sufficient Subfields.....	D. L. BURKHOLDER 596
A Calculus for Factorial Arrangements.....	B. KURKJIAN AND M. ZELEN 600
Symmetrical Unequal Block Arrangements with Two Unequal Block Sizes DAMARAJU RAGHAVARAO	620

(Continued on back cover)

Vol. 33, No. 2 — June, 1962

THE ANNALS OF MATHEMATICAL STATISTICS

Subscription Rates. Current issues are \$15 per volume (four issues of one calendar year) in the U. S. and Canada, \$12 per volume elsewhere. Single issues are \$4. Back numbers for all issues up to and including 1956 (Vol. XXVII) are \$12 per volume, \$3.50 per issue; issues from 1957 on are \$15 per volume, \$4 per issue; for complete sets, \$200 for the first 25 volumes, \$10 per additional volume purchased at the same time as Volumes I through XXV.

Rates to members of the Institute of Mathematical Statistics are lower (see inside back cover).

Communications concerning **subscriptions, back numbers, payment of dues, membership, changes of address**, etc., should be addressed to Gerald Lieberman, Treasurer, Institute of Mathematical Statistics, Department of Statistics, Stanford University, Stanford, Calif.

Editorial Office, Department of Statistics, University of California, Berkeley 4, California. J. L. Hodges, Jr. Editor.

Preparation of manuscripts. Manuscripts should be submitted to the editorial office. Each manuscript should be typewritten, double spaced, with wide margins at sides, top, and bottom, and the original should be submitted with one additional copy, on paper that will take corrections. Dittoed or mimeographed papers are acceptable only if completely legible. Footnotes should be reduced to a minimum, and where possible replaced by remarks in the text, or bibliography at the end of the paper; formulae in footnotes should be avoided. References should follow the new style, described in the Notice on page 834 of this issue.

Figures, charts, and diagrams should be professionally drawn on plain white paper or tracing cloth in black India ink twice the size they are to be printed.

Authors are asked to keep in mind the typographical difficulties of complicated mathematical formulae. The difference between capital and lower-case letters should be clearly shown; care should be taken to avoid confusion between such pairs as zero and the letter O, the numeral 1 and the letter l, numeral 1 used as superscript and prime ('), alpha and a, kappa and k, mu and u, nu and v, eta and n, etc. Subscripts or superscripts should be clearly below or above the line. Bars above groups of letters (e.g., $\overline{\log x}$) and underlined letters (e.g., \underline{x}) are difficult to print and should be avoided. Symbols are automatically italicized by the printer and should not be underlined on manuscripts. Boldface letters may be indicated by underlining with a wavy line on the manuscript; boldface subscripts and superscripts are not available. Complicated exponentials should be represented with the symbol exp. In writing square roots the fractional exponent is preferable to the radical sign. Fractions *in the body of the text* (as opposed to displayed expressions) and fractions occurring in the numerators or denominators of fractions are preferably written with the solidus; thus $(a + b)/(c + d)$ rather than $\frac{a + b}{c + d}$.

Authors will ordinarily receive only galley proofs. Fifty reprints without covers will be furnished free. Additional reprints and covers will be furnished at cost.

Mail to the *Annals of Mathematical Statistics* should be addressed to either the Editor or the Treasurer, as described above. It should *not* be addressed to Waverly Press.

COMPOSED AND PRINTED AT THE
WAVERLY PRESS, INC., BALTIMORE, MARYLAND, U. S. A.

Second-class postage paid at Baltimore, Maryland
