Cuestiones

For everything in connection with works, exchanges and subscriptions write to Prof. Sixto Rios. Departamento de Estadística del Consejo Superior de Investigaciones Científicas, Serrano 123, Madrid, Spain. The Review is composed of three fascicles published quarterly (about 350 pages) and its price is 80 pts. for Spain and South-America and 3 American Dollars for all other countries.

Subscription rates available on request

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to Rossen L. Cardwell, Secretary, The Econometric Society, The University of Chicago, Chicago 37, Illinois, U. S. A.

BIOMETRIKA

Volume 41

Contents

Parts 1 and 2, June 1954

Statistical Treatment of Censored Data. I. Fundamental Formulae. F. N. DAVID and N. L. JOHNSON. On the Moments of Order Statistics in Samples from Normal Populations. H. RUBEN. On the Superposition of Renewal Processes. D. R. COX and W. L. SMITH. A Distribution-free k-Sample test against Ordered Alternatives. A. R. JONGKHEERE. The Distribution Theory of Two Estimates for Standard Deviation Based on Second Variate Differences. A. R. KAMAT. A Bivariate Generalization of Student's t-Distribution, with Tables for Certain Special Cases. C. W. DUNNETT and M. SOBEL. A Two-Sample Multiple Decision Procedure for Ranking Means of Normal Populations with a Common Unknown Variance. R. E. BECHHOFER, C. W. DUNNETT and M. SOBEL. Two-stage Procedures for Estimating the difference between means. S. G. GHURYE and H. ROBBINS. The Use of the Hankel Transform in Statistics. I. General Theory and Examples. R. D. LORD. Inequalities for the Normal Integral Including a New Continued Fraction. L. R. SHENTON. A Confidence Region for the Solution of a Set of Simultaneous Equations with an Application to Experimental Design. G. E. P. BOX and J. S. HUNTER. The Statistical Treatment of Mean Deviation. J. H. CADWELL. Tests of Linear Hypotheses in Univariate and Multivariate Analysis When the Ratios of the Population Variances are Unknown. G. S. JAMES. On Nahordnung and Fernordnung in Samples of Literary Texts. W. FUCKS. New Techniques for the Analysis of Absenteeism Data. A. G. ARBOUS and H. S. SICHEL. Simplified Decision Functions. G. A. BARNARD. A Note on the Consistency and Maxima of the Roots of Likelihood Equations. K. S. CHANDA. Continuous Inspection Schemes. E. S. PAGE. Grouping Methods in the Fitting of Polynomials to Equally-spaced Observations. P. G. GUEST

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

MATHEMATICAL REVIEWS

A journal containing reviews of the mathematical literature of the world, with full subject and author indices

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, Institute of Mathematical Statistics, London Mathematical Society, Edinburgh Mathematical Society, Union Matematica Argentina, and others.

Subscriptions accepted to cover the calendar year only.
Issues appear monthly except July. \$20.00 per year.

Send subscription order or request for sample copy to

- MAHESH CHAND AND RAM LAL PANCHOLI Agricultural Cooperation in U. P. and Rest of British India, 1918-19, 1945-46
- ABRAHAM MATTHAI On Selecting Random Numbers for Largescale Sampling
- K. C. PODDER On the Punched Card Method in Smoothing for Age Bias in Census Returns
- The National Sample Survey Number 2: Tables with Notes on the Second Round

ANNUAL SUBSCRIPTION: 30 rupees (\$10.00), 10 rupees (\$3.50) per issue.

BACK NUMBERS: 45 rupees (\$15.00) per volume; 12/8 rupees (\$4.50) per issue.

Subscriptions and orders for back numbers should be sent to

STATISTICAL PUBLISHING SOCIETY

204/1 Barrackpore Trunk Road

Calcutta 35, India

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1954

President:

E. G. Olds, Carnegie Institute of Technology, Pittsburgh, Pennsylvania

President-Elect:

Henry Scheffé, University of California, Berkeley, California

Secretary-Treasurer:

K. J. Arnold, Michigan State College, East Lansing, Michigan

Editor:

E. L. Lehmann, University of California, Berkeley, California

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote cooperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year within the United States and Canada and \$5.00 per year elsewhere. Dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

MEETINGS OF THE INSTITUTE

SUMMER MEETING—MONTREAL, P. Q.

September 10-13, 1954.

To be held in conjunction with meetings of the American Statistical Association and the Econometric Society. Abstracts of contributed papers to be presented at this meeting must be in the hands of Associate Secretary Lionel Weiss, Department of Economics, University of Virginia, Charlottesville, Virginia by July 29, 1954.

CENTRAL REGIONAL MEETING—IOWA CITY, IOWA

November 26-27, 1954.

To be held in conjunction with a regional meeting of the American Mathematical Society.

ANNUAL MEETING—BERKELEY, CALIFORNIA

December 27-30, 1954.

To be held in conjunction with meetings of the American Association for the Advancement of Science and the Biometric Society (W.N.A.R.). (Abstracts of contributed papers must be submitted in duplicate at least 43 days before the opening day of the meeting at which the paper is to be presented. Abstract blanks may be obtained from the Secretary.)
