

MATHEMATICAL REVIEWS

provides

- 1 Prompt reviews of the mathematical literature of the world
- 2 Complete subject and author indices in last issue of volume
- 3 Microfilm or photoprints of most articles reviewed—at cost

at the very low rate of \$13 per year.

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, London Mathematical Society, Academia Nacional de Ciencias de Lima, Union Matematica Argentina, and others.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Vol. XXXII, Pt. II

CONTENTS

I. The laws of chance, in relation to thought and conduct. An introductory lecture delivered by KARL PEARSON at Gresham College in 1892. II. Medical statistics from Graunt to Farr. Part I. By MAJOR GREENWOOD. III. Fiducial argument and the theory of confidence intervals. By J. NEYMAN. IV. Tables of percentage points of the Incomplete Beta Function. Computed by CATHERINE M. THOMPSON. With prefatory note by E. S. PEARSON, and description of the calculation and methods of interpolation by L. J. COMRIE and H. O. HARTLEY. V. Table of Langrangian coefficients for harmonic interpolation in certain tables of percentage points. Prepared by L. J. COMRIE and H. O. HARTLEY. VI. Table of percentage points of the χ^2 distribution. Calculated by CATHERINE M. THOMPSON. *Miscellanea*: (i) Review of HAROLD JEFFREYS' *Theory of Probability*. By S. S. WILKS. (ii) Review of WILTON M. KROGMAN'S *A Bibliography of Human Morphology, 1914-1939*. (iii) A property of the distribution of extremes. By H. E. DANIELS. (iv) Proof of relations connected with the Tetrachoric Series and its generalization. By M. G. KENDALL. (v) The cumulants of the distribution of the square of a variate. By J. B. S. HALDANE. (vi) Numerical approximations to the percentage points of the χ^2 distribution. By MAXINE MERRINGTON.

The subscription price, *payable in advance*, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

VOL. 5, PART 2, 1941

(Proceedings of the Third Session of the Indian Statistical Conference, 1940)

Presidential Address by Professor HAROLD HOTELLING.
Articles on Theoretical Statistics

A Two Variate Gamma Type Distribution..... W. F. KIBBLE
Probability Statements Regarding the Ratio of Standard Deviations and Correlation
Coefficient in a Bivariate Normal Population..... U. S. NAIR
A Comparison of Tests for the Significance of the Difference between Two Variances
U. S. NAIR
A Method to get the Significance Limit of a Type of Test Criteria
C. CHANDRA SEKAR and MARY G. FRANCIS
Discussion on the Mathematical Theory of the Design of Experiments
R. C. BOSE

Articles in Economic and Business Statistics are also included

Annual subscription rate: 20 rupees (or 32 shillings)
Inquiries and orders may be addressed to the Editor,
Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1942

President:

C. C. CRAIG, University of Michigan, Ann Arbor, Michigan

Vice-Presidents:

A. T. CRAIG, University of Iowa, Iowa City, Iowa.

E. C. MOLINA, Bell Telephone Laboratories, New York City.

Secretary-Treasurer:

E. G. OLDS, Carnegie Institute of Technology, Pittsburgh, Pa.

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

SUMMER MEETING OF THE INSTITUTE

A meeting of the Institute will be held in Poughkeepsie, N. Y., September 8-11, 1942 in conjunction with the meetings of the American Mathematical Society and the Mathematical Association of America. Sessions will be held for research and expository papers in mathematical statistics. Abstracts of contributed research papers to be presented should be sent to the Secretary of the Institute not later than August 1, 1942.
