The Institute of Mathematical Statistics

announces the publication of

Directions in Time Series

Table of Contents

Keynote Address

Can We Predict Where "Time Series" Should Go Next? John W. Tukey

Time Series Models

Parametric Time Series with Some Applications George E. P. Box

Maximum Likelihood Estimation for Vector Autoregressive Moving Average Models T. W. Anderson

Computer Packages and Graphics

What Will Your Time Series Analysis Computer Package Do? David J. Pack

Time Series Modeling, Spectral Analysis, and Forecasting Emanuel Parzen

Some Remarks on Time Series Graphics William S. Cleveland and Douglas M. Dunn

Econometric Models

Some Recent Developments in Seasonal Adjustment David A. Pierce

Comments. John Geweke

On the Synthesis of Time Series and Econometric Models C. W. J. Granger

Comments. John Geweke

Comments. Kenneth F. Wallis

Control Theory and Engineering Applications

On the Identification of State Space Models and Their Use in Control Hirotugu Akaike

System Identification, Kalman Filtering, and Stochastic Control M. B. Priestley

Self–Tuning Algorithms for Control, Prediction and Smoothing Bjorn Wittenmark

Robust Methods

Robust Estimation of Autoregressive Models R. Douglas Martin

Comments. Robert B. Miller

Continuous Processes and Periodic Models

Continuous Model Fitting from Discrete Data P. M. Robinson

Comments. David A. Dickey

Some Recent Advances in Autoregressive Processes Marcello Pagano

Comments. Herbert T. Davis

List Price $20.00

(Members) $15.00

Order Pre-paid from:

The Institute of Mathematical Statistics

Hayward, California 94545 (USA)

Institute of Mathematical Statistics is collaborating with JSTOR to digitize, preserve, and extend access to *The Annals of Probability.* www.jstor.org

The Writings of Leonard Jimmie Savage —A Memorial Selection

The American Statistical Association and
The Institute of Mathematical Statistics
announce publication of the selected works of Jimmie Savage

Contents include:

- 45 selected reprints of papers published between 1940–1977, photographed from the original sources
- Biographical sketches and personal insights by W. Allen Wallis, Frederick Mosteller, Francis Anscombe, and William and Esther Sleator
- Scholarly essay, "L.J. Savage—His Work in Probability and Statistics," by D. V. Lindley
- Complete bibliography of all published papers, books, reviews, and discussions by Savage

736 pages, bound in blue kidskin

Papers included:

A Dynamic Problem in Duopoly
On the Crossing of Extremals at Focal Points
Unbiased Estimates for Certain Binomial Sampling Problems with Applications
The Application of Vectorial Methods to Metric Geometry
A Uniqueness Theorem for Unbiased Sequential Binomial Estimation
Abandoning an Experiment Prior to Completion
Planning Experiments Seeking Maxima
Samuelson's Foundations: Its Mathematics
The Utility Analysis of Choices Involving Risk
Application of the Radon-Nikodym Theorem to the Theory of Sufficient Statistics
Bayes and Minimax Estimates for Quadratic Loss Functions
The Theory of Statistical Decision
On the Set of Values of a Nonatomic, Finitely Additive, Finite Measure
The Expected-Utility Hypothesis and the Measurability of Utility
* Une Axiomatisation de Comportement Raisonnable Face a L'Incertitude
Three Problems in Rationing Capital
Symmetric Measures on Cartesian Products
The Nonexistence of Certain Statistical Procedures in Nonparametric Problems
When Different Pairs of Hypotheses Have the Same Family of Likelihood-Ratio Test Regions
Recent Tendencies in the Foundations of Statistics
Optimal Gambling Systems
The Foundations of Statistics Reconsidered
* Sul Modo di Scegliere le Probabilità Iniziali
* Campi di Applicazione e Tecniche della Statistica
* Uno Sguardo Sulla Statistica di Oggi
* Il Problema delle Strategie Ottime di Giòco
Bayesian Statistics
Bayesian Statistical Inference for Psychological Research
A Tchebycheff-Like Inequality for Stochastic Processes
Finite Stopping Time and Finite Expected Stopping Time
Difficulties in the Theory of Personal Probability
Implications of Personal Probability for Induction
A Geometrical Approach to the Special Stable Distributions
Comments on a Weakened Principle of Conditionality
Reading Suggestions for the Foundations of Statistics
A Generalized Unimodality
* Die Bayessche Entwicklungsstufe der Statistischen Schlussweise
Elicitation of Personal Probabilities and Expectations
The Characteristic Function Characterized and the Momentousness of Moments
The Mathematics of Glottochronology Revisited
Diagnosis and the Bayesian Viewpoint
Inequalities on the Probability Content of Convex Regions for Elliptically Contoured Distributions
Probability in Science: A Personalistic Account
On Rereading R.A. Fisher
The Shifting Foundations of Statistics

* Reprinted in original language

Order through IMS.
3401 Investment Blvd., Suite 6, Hayward, CA 94545 ..... $27.00 (IMS/ASA Member)
(Orders Are Payable in Advance) $39.00 (Nonmembers)

THE ANNALS OF STATISTICS

Vol. 10 **September 1982** **No. 3**

The 1980 Wald Memorial Lectures

On adaptive estimation ..... P. J. BICKEL

Articles

Small sample asymptotic expansions for multivariate *M*-estimates ..... CHRISTOPHER FIELD

Maximum likelihood estimation of isotonic modal regression ..... THOMAS W. SAGER AND RONALD A. THISTED

An algorithm for isotonic regression for two or more independent variables ..... RICHARD L. DYKSTRA AND TIM ROBERTSON

Optimal estimation of a general regression function ..... P. W. MILLAR

Towards a frequentist theory of upper and lower probability ..... PETER WALLEY AND TERRENCE L. FINE

Large sample point estimation: a large deviation theory approach ..... JAMES C. FU

Nonparametric estimation in renewal processes ..... Y. VARDI

Time series discrimination by higher order crossings ..... BENJAMIN KEDEM AND ERIC SLUD

On the estimation of a probability density function by the maximum penalized likelihood method ..... B. W. SILVERMAN

Consistency of two nonparametric maximum penalized likelihood estimators of the probability density function ..... V. K. KLONIAS

Towards a calculus for admissibility ..... ANDRZEJ KOZEK

General admissibility and inadmissibility results for estimation in a control problem ..... JAMES O. BERGER, L. MARK BERLINER AND ASAD ZAMAN

Improving upon standard estimators in discrete exponential families with applications to Poisson and negative binomial cases ..... JIUNN TZON HWANG

Minimax confidence sets for the mean of a multivariate normal distribution ..... JIUNN TZON. HWANG AND GEORGE CASELLA

Tests with parabolic boundary for the drift of a Wiener process ..... BROOKS FEREBEE

Asymptotic expansions for the error probabilities of some repeated significance tests ..... MICHAEL WOODROOFE AND HAJIME TAKAHASHI

Bounded regret of a sequential procedure for estimation of the mean ..... Y. S. CHOW AND A. T. MARTINSEK

Analysis of time series from mixed distributios ..... P. M. ROBINSON

Autocorrelation, autoregression and autoregressive approximation ..... AN HONG-ZHI, CHEN ZHAO-GUO AND E. J. HANNAN

Minimaxity of the method of regularization on stochastic processes ..... KER-CHAU LI

Detection of multivariate normal outliers ..... STEVEN J. SCHWAGER AND BARRY H. MARGOLIN

Distributions of maximal invariants using quotient measures ..... STEEN ANDERSSON

Minimal complete classes of tests of hypotheses with multivariate one-sided alternatives ..... JOHN I. MARDEN

A comment on best invariant predictors ..... YOSHIKAZU TAKADA

An exponential subfamily which admits UMPU tests based on a single test statistic ..... SHAUL K. BAR-LEV AND BENJAMIN REISER

Quick consistency of quasi maximum likelihood estimators ..... THOMAS PFAFF

Short Communications

Convergence of Simar's algorithm for finding the maximum likelihood estimate of a compound Poisson process ..... DANKMAR BÖHNING

A note on the minimax estimation of the Poisson intensity function ..... ALBERT Y. LO

Estimation of the non-centrality parameter of a Chi squared distribution ..... K. M. LAL SAXENA AND KHURSHEED ALAM

Stein's paradox is impossible in problems with finite sample space ..... SAM GUTMANN

A characterization of the multivariate Pareto distribution ..... P. E. JUPP AND K. V. MARDIA

A Bayes but not classically sufficient statistic ..... D. BLACKWELL AND R. V. RAMAMOORTHI

On the E-optimality of PBIB designs with a small number of blocks ..... GREGORY M. CONSTANTINE

Contents (Continued)

A renewal theorem for an urn model ..... PRANAB KUMAR SEN 838
On the expansion for expected sample size in nonlinear renewal theory
CHARLES HAGWOOD AND MICHAEL WOODROOFE 844
Structure of a class of operator-selfdecomposable probability measures
ZBIGNIEW J. JUREK 849
Stable laws of index 2^{-n} ..... S. S. MITRA 857
Probabilistic version of a curvature formula ..... VLADIMIR DROBOT 860
A log log law for minimal uniform spacings ..... LUC DEVROYE 863
Rates of escape of random walks ..... PHILIP S. GRIFFIN 869
Bayes estimators and ergodic decomposability with an application to Cox processes
E. GLÖTZL AND A. WAKOLBINGER 872
A note on conditional distributions and orthogonal measures ..... R. J. GARDNER 877
Orthogonal measures: An example ..... DOROTHY MAHARAM 879
