

THE ANNALS

of

PROBABILITY

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

Articles

Properties of optimal extended-value stopping rules S_n/n	MICHAEL J. KLASS	719
An index of genealogical relatedness derived from a genetic model STUART P. LLOYD AND COLIN L. MALLOWS		758
On the amount of variance needed to escape from a strip DAVID BLACKWELL AND DAVID FREEDMAN		772
Limit distributions of self-normalized sums B. F. LOGAN, C. L. MALLOWS, S. O. RICE AND L. A. SHEPP		788
Limiting behavior of weighted sums of independent random variables Y. S. CHOW AND T. L. LAI		810
Gaussian processes, moving averages and quick detection problems TZE LEUNG LAI		825
Convergence to zero of quadratic forms in independent random variables GARY N. GRIFFITHS, RONALD D. PLATT AND F. T. WRIGHT		838

Short Communications

A dimension theorem for sample functions of processes with stable components W. J. HENDRICKS		849
A note on the distribution of hitting times	DONALD GEMAN	854
The nonexistence of the Yaglom limit for an age dependent subcritical branching process	THOMAS G. KURTZ AND STEPHEN WAINGER	857
On the local behavior of characteristic functions	STEPHEN J. WOLFE	862
A probabilistic proof of the normal convergence criterion D. ROOT AND H. RUBIN		867
A note on empirical processes of strong-mixing sequences . . .	CHANDRAKANT M. DEO	870
The expected number of components in random linear graphs	ROBERT F. LING	876

Vol 1, No. 5—October 1973

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics

OFFICERS

President:

Lucien LeCam, Centre de recherches mathématiques, Université de Montréal,
Case postale 6128, Montreal 101, Canada

President-Elect:

R. R. Bahadur, Indian Statistical Institute, 538 Yojana Bhavan, Parliament Street,
New Delhi-1, India.

Executive Secretary:

Leo Katz, Statistical Laboratory, Michigan State University, East Lansing, Michigan
48823

Program Secretary:

R. V. Hogg, Department of Statistics, University of Iowa, Iowa City, Iowa 52240

Treasurer:

Robert Elashoff, MR IV—Room 131, University of California, San Francisco,
California 94122

Editor: *Annals of Statistics*

Ingram Olkin, Department of Statistics, Stanford University, Stanford, California
94305

Editor: *Annals of Probability*

Ronald Pyke, Department of Mathematics, University of Washington, Seattle,
Washington 98195

Managing Editor:

K. J. C. Smith, Department of Statistics, University of North Carolina, Chapel Hill
North Carolina 27514

Membership. Membership dues including a subscription to one *Annals* and *The Institute of Mathematical Statistics Bulletin* are \$18.00 per year for residents of the United States or Canada and \$12.00 per year for residents of other countries. Special rates of \$9.00 per year are available to students. Rates in each category are one-third higher for members who wish both *Annals* as well as the *Bulletin*. Inquiries regarding membership in the Institute should be sent to the Treasurer of the Institute.

Subscription Rates. Current volumes (six issues per calendar year) of the *Annals of Probability* and the *Annals of Statistics* are each \$25.00. Members of the Institute of Mathematical Statistics pay different rates (see above). Single issues are \$5.00. Back numbers of both *Annals* and the *Annals of Mathematical Statistics* (Volumes 1 through 43) may be purchased from the Treasurer.

The Annals of Probability, Volume 1, Number 4, August 1973. Published bimonthly in February, April, June, August, October, and December by The Institute of Mathematical Statistics, MR IV—Room 131, University of California, S. F., San Francisco, California 94122.

Mail to the *Annals of Probability* should be addressed to either the Editor, Managing Editor or the Treasurer, as described above. It should *not* be addressed to Waverly Press

PRINTED AT THE
WAVERLY PRESS, INC., BALTIMORE, MARYLAND 21202 U.S.A.

Application to mail at second-class postage rates is pending at San Francisco, California,
and at additional mailing offices

Z. W. BIRNBAUM, 1967-1970

INGRAM OLKIN 1970-1972

Published bimonthly by the Institute of Mathematical Statistics in February,
April, June, August, October and December.

EDITORIAL POLICY

The main aim of the *Annals of Probability* and the *Annals of Statistics* is to publish original contributions related to the theory of statistics and probability. The emphasis is on quality, importance and interest; formal novelty and mathematical correctness alone are not sufficient. Particularly appropriate for the *Annals* are important theoretical papers and applied contributions which either stimulate theoretical interest in important new problems or make substantial progress in existing applied areas. Of special interest are authoritative expository or survey articles, whether on theoretical areas of vigorous recent development, or on specific applications. All papers are refereed.

THE ANNALS OF STATISTICS

VOLUME 1

NOVEMBER 1973

No. 6

Articles

- Asymptotic expansions related to minimum contrast estimators
J. PFANZAGL
- Paired comparisons with order-effects WILLEM SCHAAFSTMA
- Central limit theorem for Wilcoxon rank statistics process
JANA JUREČKOVÁ
- A class of non-parametric tests for homogeneity against ordered alternatives PETER V. TRYON AND THOMAS P. HETSMANSPERGER
- On some global measures of the deviations of density function estimates
P. J. BICKEL AND M. ROSENBLATT
- A new nonparametric estimator of the center of a symmetric distribution
E. F. SCHUSTER AND J. A. NARVARTE
- Rank tests for one sample, two samples, and k samples without the assumption of a continuous function W. J. CONOVER
- Some asymptotic aspects of sequential analysis ROBERT H. BERK
- The asymptotic minimax character of sequential binomial and sign tests
STURE HOLM
- Minimax estimation of a cumulative distribution function . . . E. G. PHADIA
- Transformation of observations in stochastic approximation
SAMI NAGUIB ABDELHAMID
- On optimal estimation methods using stochastic approximation procedures
DAN ANBAR

Short Communications

- The asymptotic expansion of the distribution of the goodness of fit statistic V_{NN} URS R. MAAG
- Proper Bayes minimax estimators of the multivariate normal mean vector for the case of common unknown variances
WILLIAM E. STRAWDERMAN
- A best sequential test for symmetry when the probability of termination is not one DAVID L. BURDICK
- On sequential confidence intervals based on Wilcoxon type estimates
M. S. SRIVASTAVA AND A. K. SEN
- Asymptotic normality of the stopping times of some sequential procedures
P. K. BHATTACHARYA AND ASHIM MALLIK
- Estimation in sampling theory with exchangeable prior distributions
V. P. GODAMBE AND M. E. THOMPSON
- Properties of tests concerning covariance matrices of normal distributions
S. DAS GUPTA AND N. GIRI
