

THE ANNALS *of* PROBABILITY

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Articles

- Large deviations for occupation times of Markov processes with L_2 semigroups NARESH JAIN AND NICOLAI KRYLOV 1611
- Superdiffusivity for a Brownian polymer in a continuous Gaussian environment SÉRGIO BEZERRA, SAMY TINDEL AND FREDERI VIENS 1642
- Random walk in Markovian environment
DMITRY DOLGOPYAT, GERHARD KELLER AND CARLANGELO LIVERANI 1676
- Corner percolation on \mathbb{Z}^2 and the square root of 17 GÁBOR PETE 1711
- Critical exponents of planar gradient percolation PIERRE NOLIN 1748
- The law of the supremum of a stable Lévy process with no negative jumps
VIOLETTA BERNYK, ROBERT C. DALANG AND GORAN PESKIR 1777
- Continuum tree asymptotics of discrete fragmentations and applications to phylogenetic models
BÉNÉDICTE HAAS, GRÉGORY MIERMONT, JIM PITMAN AND MATTHIAS WINKEL 1790
- A problem in one-dimensional diffusion-limited aggregation (DLA) and positive recurrence of Markov chains HARRY KESTEN AND VLADAS SIDORAVICIUS 1838
- Approximate zero–one laws and sharpness of the percolation transition in a class of models including two-dimensional Ising percolation J. VAN DEN BERG 1880
- Intrinsic ultracontractivity of nonsymmetric diffusions with measure-valued drifts and potentials PANKI KIM AND RENMING SONG 1904
- Large deviations for random walks under subexponentiality: The big-jump domain
D. DENISOV, A. B. DIEKER AND V. SHNEER 1946

Corrections

- SDEs with oblique reflections on nonsmooth domains PAUL DUPUIS AND HITOSHI ISHII 1992
- Central limit theorems for Gaussian polytopes IMRE BÁRÁNY AND VAN VU 1998
