

# THE ANNALS of STATISTICS

AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS

## 1994 Wald Memorial Lectures

- Polynomial splines and their tensor products in extended linear modeling  
CHARLES J. STONE, MARK H. HANSEN, CHARLES KOOPERBERG  
AND YOUNG K. TRUONG 1371
- Discussion . . . . . JIANQING FAN 1425
- Discussion . . . . . CHONG GU 1432
- Discussion . . . . . W. HÄRDLE, J. S. MARRON AND L. YANG 1443
- Discussion . . . . . TREVOR HASTIE AND ROBERT TIBSHIRANI 1451
- Rejoinder  
CHARLES J. STONE, MARK H. HANSEN, CHARLES KOOPERBERG,  
YOUNG K. TRUONG AND JIANHUA Z. HUANG 1454

## Semiparametric Inference

- Semiparametric likelihood ratio inference . . S. A. MURPHY AND A. W. VAN DER VAART 1471
- Smoothed Cox regression . . . . . DOROTA M. DABROWSKA 1510

## Monte Carlo Methods

- Scrambled net variance for integrals of smooth functions . . . . . ART B. OWEN 1541
- On Monte Carlo methods for estimating ratios of normalizing constants  
MING-HUI CHEN AND QI-MAN SHAO 1563

## Censoring

- A study of a class of weighted bootstraps for censored data . . . . LANCELOT F. JAMES 1595
- A characterization of marginal distributions of (possibly dependent) lifetime  
variables which right censor each other . . . . TIM BEDFORD AND ISAAC MEILLJON 1622

## Nonparametric Estimation and Testing

- Nonparametric testing of the existence of modes . . . . . MICHAEL C. MINNOTTE 1646
- Local likelihood and local partial likelihood in hazard regression  
JIANQING FAN, IRÈNE GIJBELS AND MARTIN KING 1661
- On automatic boundary corrections  
MING-YEN CHENG, JIANQING FAN AND J. S. MARRON 1691

## Time and Spatial Series

- Asymptotic inference for near unit roots in spatial autoregression  
B. B. BHATTACHARYYA, G. D. RICHARDSON AND L. A. FRANKLIN 1709
- Note on convergence rates of semiparametric estimators of dependence index  
PETER HALL, HIRA L. KOUL AND BERWIN A. TURLACH 1725

## Bayes Theory

- Conditionally externally Bayesian pooling operators in chain graphs  
ÁLVARO E. FARIA, JR. AND JIM Q. SMITH 1740
- Beta-Stacy processes and a generalization of the Polya-urn scheme  
STEPHEN WALKER AND PIETRO MULIERE 1762

## REML Asymptotics

- Wald consistency and the method of sieves in REML estimation . . . . JIMING JIANG 1781
