Adaptive Statistical Procedures and Related topics edited by John Van Ryzin

This volume comprises the proceedings of the Symposium on Adaptive Statistical Procedures and Related Topics held at Brookhaven National Laboratory in June 1985. The Symposium was held in honor of the 70th birthday of Herbert Robbins, Higgins Professor of Mathematical Statistics, Columbia University, and Senior Mathematician, Brookhaven National Laboratory. (The Symposium was supported by the National Science Foundation, the Army Research Office, the Air Force Office of Scientific Research, and the Department of Energy).

CONTENTS

Sequential Analysis

- *On the Passage of a Random Walk from Generalized Balls* by S. Csörgö and L. Horváth
- *Convergence Rates for Iterative Solutions to Optimal Stopping Problems* by D. A. Darling
- *Computing Optimal Sequential Allocation Rules in Clinical Trials* by M. N. Katehakis and C. Derman
- *Sequential Analysis and the Law of the Iterated Algorithm* by H. R. Lerche
- *Multi-stage Tests of Hypotheses* by G. Lorden
- *A Multiple Criteria Optimal Selection Problem* by S. M. Samuels and B. Chotlos
- *On Bayes Tests for $p \leq 1/2$ versus $p > 1/2$. Analytical Approximations* by G. Simons and X. Wu
- *Sequential Confidence Intervals with Beta Protection in One-Parameter Families* by R. A. Wijsman
- *Confidence Sets for a Change-Point* (Abstract) by D. Siegmund
- *Asymptotic Optimality in Sequential Interval Estimation* (Abstract) by M. Woodroofe

Empirical Bayes Theory and Methods

- *Empirical Bayes Rules for Selecting Good Binomial Populations* by S. S. Gupta and T. Liang
- *The Finite State Compound Decision Problem, Equivariance and Restricted Risk Components* by D. C. Gilliland and J. F. Hannan
- *The Primal State Adaptive Control Chart* by B. Hoadley and B. Huston
- *Fully Nonparametric Empirical Bayes Estimation Via Projection Pursuit* by M. V. Johns
- *Empirical Bayes Estimation in Heterogeneous Matched Binary Samples with Systematic Aging Effects* by B. Levin
- *Empirical Bayes: A Frequency/Bayes Compromise* by C. N. Morris
- *Adaptive Allocation for Importance Sampling* by R. F. Peierls and J. A. Yahav
- *Empirical Bayes Procedures with Censored Data* by V. Susarla and J. Van Ryzin
- *Empirical Bayes Stock Market Portfolios* (Abstract) by T. M. Cover and D. H. Gluss

Stochastic Approximation Procedures

- *Stochastic Approximation for Functionals* by D. L. Hanson and R. P. Russo
- *Constrained Stochastic Approximation Via the Theory of Large Deviations* by H. Kushner and P. Dupuis
- *Stochastic Approximation and Adaptive Control* by T. L. Lai
- *Repeated-MLE Procedures for Stochastic Approximation in Quantal Response Problems* by T. Sellke
- *Maximum Likelihood Recursion and Stochastic Approximation in Sequential Designs* by C. F. J. Wu
- *Stochastic Approximation Revisited* (Abstract) by A. Dvoretzky

Related Topics: Statistics

- *Distribution Optimality and Second-Order Efficiency of Test Procedures* by R. R. Bahadur and J. C. Gupta
- *On Estimating the Total Probability of the Unobserved Outcomes of an Experiment* by P. J. Bickel and J. A. Yahav
- *Remarks on the Estimation of Coefficients of a Regression in the Presence of Unknown Explanatory Variables* by H. Chernoff
- *Estimation of the Median Survival under Random Censorship* by J. C. Gardiner, V. Susarla, and J. Van Ryzin
- *Maximum Likelihood Estimation in Regression with Uniform Errors* by H. Robbins and C-H. Zhang
- *Evaluating the Chosen Population: A Bayes and Minimax Approach* by H. Sackrowitz and E. Samuel-Cahn

Related Topics: Probability

- *Stochastic Differential Equations for Neuronal Behavior* by S. K. Christensen and G. Kallianpur
- *Optimization by Simulated Annealing: A Necessary and Sufficient Condition for Convergence* by B. Hajek
- *Ruelle's Perron-Frobenius Theorem and the Central Limit Theorem for Additive Functionals of One-Dimensional Gibbs States* by S. P. Lalley

“If it weren’t for IMS Members’ Life Insurance, I’d be underinsured . . . by thousands of dollars!”

“...With the future I have planned—marriage, a home, a family—my company policy just wouldn’t be enough. So I bought low-cost term life insurance through my membership.”

Starting a personal insurance program when you’re young and healthy is smart, because it’s easier to qualify. For a low cash outlay, your program is off to a good start. And even though rates go up as you get older, they are still affordable because of our group’s buying power.

Further, should you change jobs—as long

as you remain a member—your group term life insurance goes with you...everywhere.

Are you underinsured? Think about your future. Then, to build up your insurance program, call or write the Administrator.

**UP TO \$240,000 IN
TERM LIFE INSURANCE PROTECTION IS
AVAILABLE TO IMS MEMBERS.**

The IMS Life Plan is underwritten by New York Life Insurance Company, New York, New York 10010 on form number GT-2-PA-9400.

STATISTICAL SCIENCE

a review journal of the institute of mathematical statistics

EXECUTIVE EDITOR: Morris H. DeGroot, *Carnegie Mellon University*

EDITORS: Ingram Olkin, *Stanford University*

Stephen Stigler, *University of Chicago*

James V. Zidek, *University of British Columbia*

Statistical Science, now in its fourth year of publication, presents the full range of contemporary statistical thought at a modest technical level accessible to the broad community of practitioners, teachers, researchers, and students in statistics, probability, and related fields. *Statistical Science* has been enthusiastically received by the statistical and probabilistic community.

"...a joy to read...clear and insightful."

Peter Enis, *Buffalo*

"...most refreshing...I enjoyed page after page."

Frederick Mosteller, *Harvard*

"...very attractive...extremely interesting."

Peter Armitage, *Oxford*

"*Statistical Science* is a gem."

Jonas H. Ellenberg, *National Institutes of Health*

"...read from cover to cover, and I enjoyed every bit..."

Robert F. Ling, *Clemson*

"...beautiful...an attractive and exciting product."

Judith Tanur, *Stony Brook*

"...a welcome draught of fresh air."

Samuel Kotz, *Maryland*

"...a great success."

I. Richard Savage, *Yale*

"...marvelous...a wonderful service!"

Michael D. Perlman, *Washington*

"...an enormous delight!"

Edward D. Tufte, *Yale*

Featuring in Volume 3 (1988)

Articles by Freedman and Zeisel on "From Mouse-to-Man: The Quantitative Assessment of Cancer Risk"; Darnell on "Harold Hotelling 1895-1973"; Iyengar and Greenhouse on "Selection Models and the File Drawer Problem"; Dempster on "Employment Discrimination and Statistical Science"; Reid on "Saddlepoint Methods and Statistical Inference"; Draper on "Rank-Based Robust Analysis of Linear Models I—Exposition and Review"; Good on "The Interface between Statistics and Philosophy of Science"; Ramsay on "Monotone Regression Splines in Action"; Hedayat, Jacroux, and Majumdar on "Optimal Designs for Comparing Test Treatments with Controls". *Papers from the Ninth Symposium on Statistics and the Environment. Classic articles from the world of statistics and probability: Hotelling on "The Teaching of Statistics" and "The Place of Statistics in the University". Conversations with G. A. Barnard, Cuthbert Daniel, F. Mosteller, and J. W. Tukey*

Individual members of the Institute may elect to receive *Statistical Science*, in addition to other benefits, for \$35. Nonmember subscriptions to *Statistical Science* only are available to individuals for \$30. Library subscriptions to *Statistical Science* only are \$45; all library subscriptions to the *Annals* include a subscription to *Statistical Science*. For additional information on how to receive *Statistical Science*, please write to the IMS Business Office, 3401 Investment Boulevard #7, Hayward, California 94545 (USA).
