

# THE ANNALS of STATISTICS

ISSN (0090-5364)

AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS

## Memorial Articles

### A. N. Kolmogorov 1903–1987

- The unfathomable influence of Kolmogorov . . . . . NIKOLAI N. CHENTSOV 987  
 On density estimation in the view of Kolmogorov's ideas  
 in approximation theory . . . . . RAFAEL HASMINSKII AND ILDAR IBRAGIMOV 999  
 Kolmogorov's contributions to mathematical statistics . . . . . ANDREW L. RUKHIN 1011  
 A. N. Kolmogorov and statistics: A citation bibliography  
 R. M. DUDLEY, STEPHANIE L. COOK, JIMENA LLOPIS AND N. P. PENG 1017

## Articles

- Remarks on functional canonical variates, alternating least squares methods  
 and ACE . . . . . ANDREAS BUJA 1032  
 A decomposition for the likelihood ratio statistic and the Bartlett correction—  
 A Bayesian argument . . . . . PETER J. BICKEL AND J. K. GHOSH 1070  
 Renewal theory properties of ion channels  
 ANDRÉ ROBERT DABROWSKI, DAVID McDONALD AND UWE RÖSLER 1091  
 Bounds on the efficiency of linear predictions using an incorrect  
 covariance function . . . . . MICHAEL L. STEIN 1116  
 A comparison of generalized cross validation and modified maximum likelihood  
 for estimating the parameters of a stochastic process . . . . . MICHAEL L. STEIN 1139  
 A sufficient condition for asymptotic sufficiency of incomplete observations  
 of a diffusion process . . . . . CATHERINE F. LAREDO 1158  
 Inference for a nonlinear counting process regression model  
 IAN W. MCKEAGUE AND KLAUS J. UTIKAL 1172  
 A Bahadur-type representation for empirical quantiles of a large class  
 of stationary, possibly infinite-variance, linear processes . . . . . C. H. HESSE 1188  
 Asymptotic properties of a general class of nonparametric tests  
 for survival analysis . . . . . MICHAEL P. JONES AND JOHN CROWLEY 1203  
 Goodness of fit tests in models for life history data based on cumulative  
 hazard rates . . . . . NILS LID HJORT 1221  
 Nonparametric Bayes estimators based on beta processes in models  
 for life history data . . . . . NILS LID HJORT 1259  
 Lower bounds on Bayes factors for multinomial distributions, with application  
 to chi-squared testing . . . . . MOHAN DELAMPADY AND JAMES O. BERGER 1295  
 On the uniform consistency of Bayes estimates for multinomial probabilities  
 P. DIACONIS AND D. FREEDMAN 1317  
 Bayes' theorem for Choquet capacities . . . . LARRY A. WASSERMAN AND JOSEPH B. KADANE 1328  
 An omnibus test for departures from constant mean . . DANIEL BARRY AND J. A. HARTIGAN 1340  
 Sequential allocation for an estimation problem with ethical costs  
 MICHAEL WOODROOFE AND JANIS HARDWICK 1358  
 Time-sequential point estimation through estimating equations  
 I-SHOU CHANG AND CHAO A. HSIUNG 1378  
 Sequential confidence regions in inverse regression problems  
 JUANN T. HWANG AND HUNG-KUNG LIU 1389  
 Kernel and nearest-neighbor estimation of a conditional quantile  
 P. K. BHATTACHARYA AND ASHIS K. GANGOPADHYAY 1400  
 Minimax risk over hyperrectangles, and implications  
 DAVID L. DONOHO, RICHARD C. LIU AND BRENDA MACGIBBON 1416  
 On the asymptotic properties of the jackknife histogram . . . . . C. F. J. WU 1438  
 Asymptotic chi-square tests for a large class of factor analysis models  
 YASUO AMEMIYA AND T. W. ANDERSON 1453

# INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

*The purpose of the Institute is to foster the development and dissemination of the theory and applications of statistics and probability.*

---

## OFFICERS AND EDITORS

- President:** Shanti S. Gupta, Department of Statistics, Purdue University, West Lafayette, Indiana 47907
- President-Elect:** David O. Siegmund, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305
- Past President:** Ram Gnanadesikan, Morris Research and Engineering Center, Bell Communications Research, 435 South Street, Morristown, New Jersey 07960-1961
- Executive Secretary:** Peter Purdue, Department of Operations Research, Code 55, Naval Postgraduate School, Monterey, California 93943
- Treasurer:** Jessica Utts, Division of Statistics, University of California, Davis. *Please send correspondence to:* IMS Business Office, 3401 Investment Boulevard #7, Hayward, California 94545
- Program Secretary:** Lynne Billard, Department of Statistics, University of Georgia, Athens, Georgia 30602
- Editor, *The Annals of Statistics*:** Arthur Cohen, Department of Statistics, Busch Campus, Rutgers University, New Brunswick, New Jersey 08903
- Editor, *The Annals of Probability*:** Peter Ney, Department of Mathematics, Van Vleck Hall, University of Wisconsin, 480 Lincoln Drive, Madison, Wisconsin 53706
- Editor, *The Annals of Applied Probability*:** J. Michael Steele, School of Engineering and Applied Science, E-220 Engineering Quadrangle, Princeton University, Princeton, New Jersey 08544
- Executive Editor, *Statistical Science*:** Carl N. Morris, Statistical Sciences Center, RLM 8.100, University of Texas, Austin, Texas 78712
- Editor, *The IMS Bulletin*:** George P. H. Styan, Department of Mathematics and Statistics, Burnside Hall, McGill University, 805 Sherbrooke Street West, Montreal PQ, Canada H3A 2K6
- Editor, *The IMS Lecture Notes—Monograph Series*:** Robert J. Serfling, Department of Mathematical Sciences, Johns Hopkins University, Baltimore, Maryland 21218
- Managing Editor:** Roger L. Berger, Department of Statistics, Box 8203, North Carolina State University, Raleigh, North Carolina 27695
- Managing Editor:** Paul Shaman, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302

---

**Journals.** The scientific journals of the Institute are *The Annals of Statistics*, *The Annals of Probability* and *Statistical Science*. The news organ of the Institute is *The Institute of Mathematical Statistics Bulletin*.

**Individual and Organizational Memberships.** All individual members receive *The IMS Bulletin* for basic membership dues of \$30. Each regular member must elect to receive at least one scientific journal for an additional amount, as follows: *Statistical Science* (\$5), one *Annals* (\$15) or two *Annals* (\$25). Dues allocations to each journal are set by Council resolution. Of the total dues paid, \$12 is allocated to *The IMS Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received. Reduced membership dues are available to full-time students, permanent residents of countries designated by the IMS Council and retired members. Retired members may elect to receive the *Bulletin* only for \$12. *Organizational memberships* are available to nonprofit organizations at \$270 per year and to for-profit organizations at \$585 per year. Organizational memberships include two multiple-readership copies of all IMS journals in addition to other benefits specified for each category (details available from the IMS Business Office).

**Individual and General Subscriptions.** Subscriptions are available on a calendar-year basis. *Individual subscriptions* are for the personal use of the subscriber and must be in the name of, paid directly by and mailed to an individual. Individual subscriptions for 1990 are available to both *Annals* and *Statistical Science* (\$96), one *Annals* and *Statistical Science* (\$60), both *Annals* (\$72), one *Annals* (\$45), *Statistical Science* (\$30) and *The IMS Bulletin* (\$20). *General subscriptions* are for libraries, institutions and any multiple-readership use. General subscriptions for 1990 are available to both *Annals* and *Statistical Science* (\$180), one *Annals* and *Statistical Science* (\$105), both *Annals* (\$145), one *Annals* (\$90), *Statistical Science* (\$45) and *The IMS Bulletin* (\$30). Air mail rates for overseas delivery are \$50 per title.

**Permissions policy.** Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Institute of Mathematical Statistics, provided that the base fee of \$5.00 per copy, plus \$.00 per page is paid directly to the Copyright Clearance Center, 27 Congress Street, Salem, Massachusetts 01970. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is: 0090-5364/90 \$5.00 + .00.

**Correspondence.** Mail to IMS should be sent to the IMS Business Office (membership, subscriptions, claims, copyright permissions, advertising, back issues), the Editor of the appropriate journal (submissions, editorial content) or the Managing Editor of the appropriate journal (production).

***The Annals of Statistics* (ISSN 0090-5364)**, Volume 18, Number 3, September, 1990. Published quarterly by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545. Second-class postage paid at Hayward, California and at additional mailing offices.

**POSTMASTER:** Send address changes to *The Annals of Statistics*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545.

## EDITORIAL POLICY

The main purpose of *The Annals of Statistics* and *The Annals of Probability* is to publish significant contributions to the theory of statistics and probability and their applications. The emphasis is on importance and interest; formal novelty and mathematical correctness alone are not sufficient for publication. Especially appropriate are authoritative expository papers and surveys of areas in vigorous development. Because statistics is an evolving discipline, the Editors of *The Annals of Statistics* take a broad view of its domain and welcome papers in interface areas. Contributors to *The Annals of Statistics* should review the editorial in the January 1980 issue. All papers are refereed.

---

## ADDITIONAL GUIDELINES FOR PREPARING PAPERS FOR THE ANNALS OF STATISTICS

1. The introduction and/or abstract should contain a statement pertaining to the statistical importance of the paper. Sometimes this is clear when reference is made to previous work. Statistical importance, not mathematical complexity for its own sake, is the prime criterion for publication.
2. The introduction should be thorough and contain clear yet nontechnical descriptions of the important results. Furthermore, the introduction should give a clear indication of where in the paper the main results and conclusions are to be found.
3. In papers where the formulation is general and mathematically abstract, when appropriate, the author should provide a short development of a special case, an example, or an illustration of the results. If possible, the special case or example should be in the introduction or shortly thereafter.
4. The manuscript should be proofread thoroughly before being submitted. Manuscripts with many typographical errors will cause unnecessary delays and may require resubmission.

# THE ANNALS OF STATISTICS

## INSTRUCTIONS FOR AUTHORS

**Submission of Papers.** Papers to be submitted for publication should be sent to the Editor of *The Annals of Statistics*. (For current address, see the latest issue of the *Annals*.) **Four copies** should be submitted on paper that will take ink corrections. The manuscript will *not* normally be returned to the author; when expressly requested by the author, one copy of the manuscript will be returned. All manuscripts should be accompanied by a cover letter.

**Preparation of Manuscripts.** Manuscripts should be typewritten, entirely double-spaced, including references, with wide margins at sides, top and bottom. All copies must be completely legible. When technical reports are submitted, all extraneous sheets and covers must be removed. Typists should check an issue of the *Annals* for style.

**Submission of Reference Papers.** Four copies of unpublished or not easily available papers cited in the manuscript should be submitted with the manuscript.

**Title.** The title should be descriptive and as concise as is feasible, i.e., it should indicate the topic of the paper as clearly as possible, but every word in it should be pertinent.

**Abbreviated Title.** An abbreviated title to be used as a running head is also **required**. This should normally not exceed 35 characters. For example, an article with the title "The Curvature of a Statistical Model, with Applications to Large-Sample Likelihood Methods," could have the running head, "Curvature of Statistical Model" or possibly "Asymptotics of Likelihood Methods," depending on the emphasis to be conveyed.

**Affiliation.** Indicate your present institutional affiliation as you would like it to appear.

**Summary.** Each manuscript is required to contain a summary, clearly separated from the rest of the paper, which will be printed immediately after the title. Its main purpose is to inform the reader quickly of the nature and results of the paper; it may also be used as an aid in retrieving information. The length of a summary will clearly depend on the length and difficulty of the paper, but in general it should not exceed 150 words. Formulas should be used as sparingly as possible within the summary. The summary should not make reference to results or formulas in the body of the paper—it should be self-contained.

**Footnotes.** Footnotes should not be used, except as described under Title Page Footnotes below. Such information should be included within the text.

**Title Page Footnotes.** Included as a footnote on page 1 should be the headings:

American Mathematical Society 1980 subject classifications. Primary—; secondary—.  
Key words and phrases.

The classification numbers representing the primary and secondary subjects of the article may be

found with instructions for its use in the *Mathematical Reviews Annual Subject Index*-1980. The key words and phrases should describe the subject matter of the article; generally they should be taken from the body of the paper.

Acknowledgment of support. Grants and contracts should also be included in this footnote.

**Identification of Symbols.** Manuscripts for publication should be clearly prepared to insure that all symbols are properly identified. Distinguish between "oh" and "zero"; "ell" and "one"; "epsilon" and "element of"; "summation" and "capital sigma," etc. Indicate also when special type is required (Greek, German, script, boldface, etc.); unless indicated otherwise, formula letters will be set in italics. Acronyms should be introduced sparingly. Any handwritten symbols should be clearly identified.

**Figures and Tables.** Figures, charts, and diagrams should be prepared in a form suitable for photographic reproduction and should be professionally drawn twice the size they are to be printed. (These need not be submitted until the paper has been accepted for publication.) The printer does not improve upon the quality of the figures submitted. Tables should be typed on separate pages with accompanying footnotes immediately below the table.

**Formulas.** Fractions *in the text* are preferably written with the solidus or negative exponent; thus,

$(a + b)/(c + d)$  is preferred to  $\frac{a + b}{c + d}$ , and  $(2\pi)^{-1}$

or  $1/(2\pi)$  to  $\frac{1}{2\pi}$ . Also,  $a^{b(c)}$  and  $a_{b(c)}$  are preferred

to  $a^{b^c}$  and  $a_{b^c}$ , respectively. Complicated exponentials should be represented with the symbol exp. A fractional exponent is preferable to a radical sign.

**References.** References should be typed double-spaced and should follow the style:

Kiefer, J. C. (1976). Admissibility of conditional confidence procedures. *Ann. Statist.* 4 836–865.

In textual material, the format "... Kiefer (1976)..." should be used. Multiple references can be distinguished as "... Kiefer (1976a)..." Abbreviations for journals should be taken from a current index issue of *Mathematical Reviews*.

**Addresses.** The permanent address of each author should be typed following the references.

**Galley Proofs.** The author will ordinarily receive galley proofs. Corrected galley proofs should be sent to AOS Redactory, Science Typographers, Inc., 15 Industrial Boulevard, Medford, NY 11763.

**Correspondence.** All correspondence with the Editor must refer to the manuscript number of the paper. This number will be on the card sent to the author acknowledging receipt of the article.
